Contested Tongues Language Politics Cultural Correction In Ukrain:

Contested Tongues Laada Bilaniuk, 2005 During the controversial 2004 elections that led to the Orange Revolution in Ukraine cultural and linguistic differences threatened to break apart the country *Contested Tongues* explains the complex linguistic and cultural politics in a bilingual country where the two main languages are closely related but their statuses are hotly contested Laada Bilaniuk finds that the social divisions in Ukraine are historically rooted ideologically constructed and inseparable from linguistic practice She does not take the labeled categories as givens but questions what Ukrainian and Russian mean to different people and how the boundaries between these categories may be blurred in unstable times Bilaniuk's analysis of the contemporary situation is based on ethnographic research in Ukraine and grounded in historical research essential to understanding developments since the fall of the Soviet Union Mixed language practices surzhyk in Ukraine have generally been either ignored or reviled but Bilaniuk traces their history their social implications and their accompanying ideologies Through a focus on mixed language and purism the author examines the power dynamics of linguistic and cultural correction through which people seek either to confer or to deny others social legitimacy The author's examination of the rapid transformation of symbolic values in Ukraine challenges theories of language and social power that have as a rule been based on the experience of relatively stable societies

Eurovisions: Identity and the International Politics of the Eurovision Song Contest since 1956 Julie Kalman, Ben Wellings, Keshia Jacotine, 2019-11-19 This book uses the Eurovision Song Contest ESC as an analytical entry point to understand and illuminate post War Europe and the drive to create an identity that can legitimise the European project in its broadest sense The ESC presents an idealised vision of Europe and this has long existed in a strained relationship with reality While the trajectory of post war European integration is a high profile topic we believe that the ESC offers a unique and innovative way to think about the role of culture in the history of post War European integration and tensions between the ideal and reality of European unity Through the series of case studies that make up the chapters in this book analysis brings these interlinked tensions to light exploring the roles of culture and identity alongside and a productive conversation with the political and economic projects of post war European integration
