**Contingency and Plasticity in Everyday Technologies** , Natasha Lushetich, Iain Campbell, Dominic Smith, 2022-11-23 Technology is a host of social material and epistemic transformation techniques tools and methods The common perception of digital technology today is that it is determined even over determined This volume suggests a different view the digital is indeterminate Mobilising insights from philosophy art and architecture theory mathematics computer science and anthropology it situates digital indeterminacy within the wider context of material and immaterial processes causations triggerings and their performative working The book's tripartite structure reflects technology's inherent capacity to transform knowledges practices and time Part I Social Digital Technologies juxtaposes arguments for machinic indeterminacy to those of overdetermination in blockchain cognitive augmentation and digital ideology Part II Spatial Temporal Aural and Visual Technologies delves deeper into received ideas about technologies for building spatial structures manufacturing instruments and constructing the visual space Part III Epistemic Technologies analyses the use of plasticity in cognitive science contingency in thinking habits ontogenesis in experimental computing and divination techniques with an inbuilt margin of indeterminacy List of contributors Franco Bifo Berardi Iain Campbell Stephen Darren Dougherty Aden Evens Oswaldo Emiddio Vasquez Hadjilyra Stavros Kousoulas Natasha Lushetich Peteer M rsepp Luciana Parisi Andrej Radman Alesha Serada Dominic Smith Sha Xin Wei Joel White Ashley Woodward and David Zeitlyn [Subject Guide to Books in Print](#) , 2001 **Critical Communities and Aesthetic Practices** Francis Halsall, Julia Jansen, Sinéad Murphy, 2011-11-17 Critical Communities and Aesthetic Practices brings together eminent international philosophers to discuss the inter dependence of critical communities and aesthetic practices Their contributions share a hermeneutical commitment to dialogue both as a model for critique and as a generator of community Two conclusions emerge The first is

that one's relationships with others will always be central in determining the social political and artistic forms that philosophical self reflection will take The second is that our practices of aesthetic judgment are bound up with our efforts as philosophers to adapt ourselves and our objects of interest to the inescapably historical and indeterminate conditions of experience The papers collected here address the issue that critical communities and aesthetic practices are never politically neutral and can never be abstracted from their particular contexts It is for this reason that the contributors investigate the politics not of laws parties or state constitutions but of open indefinably critical communities such as audiences peers and friends Critical Communities and Aesthetic Practices is distinctive in providing a current selection of prominent positions written for this volume Together these comprise a pluralist un homogenized collection that brings into focus contemporary debates on critical and aesthetic practices      **Directory of Postgraduate Studies 2002** Hobsons Publishing, PLC,2001
