Contingencies And Other Essays:

Contingencies and other essays Cecil Gray,1971 **Atheism in Philosophy** Frederic Henry Hedge,1884 **And Other Essays** Michael Cohen,2020-08-03 In this essay collection the sequel to his *A Place to Read* Michael Cohen presents the odd idea of the suicide note as a writing project that can be critiqued like any other describes encounters with illegal border crossers in south Texas and ponders the sudden popularity of books about atheism Books are a frequent subject here and Cohen makes an argument for *The Maltese Falcon* as the Great American Novel searches for the perfect the Platonic nature handbook and compares playing golf to reading about it Reading is for him as engrossing a form of experience as any other say hitchhiking through the Southwest with an old friend the joys of flying small planes or the charm of studying ancient Greek while people watching at the gym all experiences chronicled here He looks back at the effect a 1956 collision of two airliners over the Grand Canyon had on him as a kid fond of flying and how he learned about the joys of good food during a wanderjahr in Europe Many of these essays begin with a question whether Americans deserve their reputation for materialism why we seem to have lost the climate change battle and whether talking to yourself might really be beneficial Another frequent topic is how our ideal places cannot avoid being bruised by time He looks at what happened as the Tucson bars of his college days closed or morphed into very different places He traces seasonal changes in the desert He notes what happens to its effect when a giant cross beside I 40 in Texas is joined by equally giant windmills And he takes a mind s eye tour through Paris s terrace caf s and their literary associations after the 2015 terrorist attack there *From a 'Necessary Evil' to the Art of Contingency* Suvi Soininen,2015-10-15 This book presents a comprehensive study of Oakeshott s conception of political activity The author first examines Oakeshott in the contexts of liberal conservative and Idealist thought and then presents a detailed interpretation of the change in his conception of politics in the context of British postwar political thought It is argued that Oakeshott s conception of political activity shifted from a near contempt of politics towards the applauding of politics as a deliberative and reflective activity The development is disclosed by examining the change in his key concepts such as authority and tradition Accordingly some rather unexpected aspects of Oakeshott s thought such as his close relationship to the linguistic turn appear The author argues that although Oakeshott cannot exactly be classified as belonging to that group of political philosophers for whom politics represents a superior human activity his later work presents an important and original view of politics as an art of contingency **An Essay on Probabilities, and Their Application to Life Contingencies and Insurance Offices** Augustus De Morgan,1838 *The Will to Believe and Other Essays in Popular Philosophy* William James,1896 *The Function of the Poet and Other Essays* James Russell Lowell,1920 *Darwinism in Morals, and Other Essays* Frances Power Cobbe,1883 *The History of Freedom and Other Essays* John Emerich Edward Dalberg Acton Baron Acton,1909 **An Historical Essay on Contingent and Executory Interests in Land in English Law** Ernest William Shaw Fletcher,1915 **The Works of Thomas Love Peacock: Critical**
