CONTINUITY & CHANGE IN RURAL RUSSIA A GE GREGORY. IOFFE,2019-06-14 *Continuity And Change In Rural Russia* Grigory Ioffe,Tatyana Nefedova,1997-05 After carefully examining ongoing reform efforts in Russian agriculture against the backdrop of European and Russian agrarian history and rural spatial development since the late nineteenth century the authors conclude that private farming is not a viable option in Russia s future Instead they find that a convergence of Soviet style subsidiary farming with traditional and reorganized collective farms is most likely *Rural Reform in Post-Soviet Russia* David J. O'Brien,Stephen K. Wegren,2002-03-20 Rural Reform in Post Soviet Russia reviews change in agricultural and rural life since 1990 through historical political sociological and anthropological investigation The contributors interest is not so much in agriculture itself but in agrarian issues such as the relationship between rural interests and changing Russian institutions the economic and social organization of rural households and the quality of life in rural families and villages

State Capability and Challenges to Russia's Food Security in the Twenty-first Century Stephen K. Wegren,2025-11-24 This book offers a rigorous examination of Russia s state capability through the critical lens of food security revealing profound implications for domestic stability and international relations Drawing on extensive research the author demonstrates how food insecurity has historically catalyzed political instability in Russia explaining the Putin regime s substantial investment in agricultural self sufficiency since 2014 The analysis extends beyond domestic considerations to interrogate Russia s unique position as the sole major authoritarian grain exporter in a changing global order It contains compelling evidence that Russia s management of food security challenges constitutes a pivotal factor in contemporary geopolitics As climate change threatens future Russian grain production it shows the consequences extend to dependent regimes and global market stability This timely contribution advances scholarly understanding of how control over fundamental resources influences state capability and international relations It will be essential reading for researchers and students in Russian studies international relations food security and political economy as well as policymakers engaged with global food systems and security governance *The Cambridge History of Russia: Volume 3, The Twentieth Century*

Maureen Perrie,Ronald Grigor Suny,2006-11-02 A major history of twentieth century Russia by leading scholars in the field

The Politics of Poverty in Contemporary Russia Ann-Mari Sätre,2019-01-15 This book provides an overview of poverty and well being in Russia Increasing poverty rates during the 1990s were followed by greater attention to social policies in the 2000s and increased efforts to engage people in socially oriented NGOs and encourage them to contribute to the fulfillment of social aims What impact did these developments have on the prevalence of poverty in contemporary Russian society Tracing continuities from the Soviet system alongside recent developments such as the falling price of oil economic sanctions and changes in directions of social policy this book explores the impact of poverty inequality and social programmes The author examines the agency of people living in poverty and those engaged in social policy using official

statistics survey data and interviews from four Russian regions to explain the reasons and consequences of poverty and people's attempts to get out of it. The approach is based on institutional theory complemented by Amartya Sen's capability approach highlighting the importance of agency and an institutional framework as a means for change. A timely book that will be of interest to students of contemporary Russian politics as well as those engaged in social policy issues.

Attitudes, Poverty and Agency in Russia and Ukraine Ann-Mari Sätre, Ildikó Asztalos Morell, 2017-10-02. One of the main ideas behind this book was to trace continuities from the Soviet time to post-Soviet Russia. There are many similarities between Russia and Ukraine indicating such a continuation. Russia and Ukraine had a lot in common in terms of culture, language and history partly also because of their common origin. After the dissolution of the Soviet Union, however, the two independent countries chose different routes of development. This makes it possible to distinguish between the effects of politics reforms on the one hand and the impacts from the Soviet system on the other. After some more or less chaotic development paths in the 1990s showing clear differences between the two countries and before the contemporary conflict broke out in Eastern Ukraine 2013, they had once again more similarities in terms of political leadership and policies in general. The chapters in this book focus on Ukraine and on two regions in Russia: Nizhny Novgorod and Archangelsk. Contributors look at attitudes towards poverty and poor people, strategies of the poor and policies against poverty. This book was published as a special issue of the *Journal of Contemporary Central and Eastern Europe*.

The Shadow of War Stephen Lovell, 2011-06-24. Taking the achievements, ambiguities and legacies of World War II as a point of departure, *The Shadow of War: The Soviet Union and Russia 1941 to the Present* offers a fresh new approach to modern Soviet and Russian history. Presents one of the only histories of the Soviet Union and Russia that begins with World War II and goes beyond the Soviet collapse through to the early twenty-first century. Innovative thematic arrangement and approach allows for insights that are missed in chronological histories. Draws on a wide range of sources and the very latest research on post-Soviet history, a rapidly developing field. Supported by further reading, bibliography, maps and illustrations.

The Politics of Fresh Water Catherine M. Ashcraft, Tamar Mayer, 2016-12-08. Water scarcity is not simply the result of what nature has to offer but always involves power relations and political decisions. This volume discusses the politics of the freshwater crisis, specifically how access to water is determined in different regions and historical periods, how conflict is constructed and managed and how identity and efforts to control water systems through development technologies and institutions shape one another. The book analyzes responses to the water crisis as efforts to mitigate water insecurity and as expressions of collective identity that legitimate resist or seek to transform existing inequalities. The chapters focus on different processes that contribute to freshwater scarcity, including land use decisions, pollution, privatization, damming, climate change, discrimination, water management institutions and technology. Case studies are included from North and South America, Africa, Asia, Europe and New Zealand.

Distinct Inheritances Hannes Grandits, Max-Planck-Institut für ethnologische Forschung, 2003. This book explores the

relationship between inheritance practices property systems and kinship It brings together contributions from family history demography and social anthropology in order to investigate the origins workings and implications of Europe s diverse inheritance systems The richness and antiquity of Europe s historical archives provide a unique opportunity for anthropologists and historians to develop a shared understanding of the interaction of economic demographic and social processes as they unfold over time p i Post-Soviet Geography and Economics ,2002 Dilemmas of Transition in Post-Soviet Countries Joel C. Moses,2003 Exploring the tensions inherent in transition this perceptive book offers a wide ranging overview of the impact of democracy and capitalism on the former Soviet republics Leading scholars assess the region s daunting problems in the key realms of privatization democratization foreign investment agrarian reform local governance and market economics The contributors argue that the central dilemma facing all these fledgling countries is the inherent contradiction between the immediate pursuit of privatization and foreign investment and the long term policy goal of democratization Offering both theoretical and comparative perspectives on the far reaching implications of nation building and democratic transition this valuable study will enable both students and scholars to comprehend the unique difficulties of transition Transition and the Spatial Organization of Industries Alexandra Schleier,2004 The study addresses the question of how the spatial organization of the bread industry in the Irkutsk Oblast changes under the conditions of the Russian transition economy Using diffusion theory and regression analysis the emergence of new bakeries over time and space is analyzed Two overlaying diffusion mechanisms determine the emergence of new enterprises in the region The results of a cluster analysis show the characteristics of the enterprise population that can be divided into a market oriented and a non market oriented group of enterprises Finally using comparative studies from Industrial Organization the structures of bread markets are studied The results show strong regional disparities and distortions in the emergence of markets

Problems of Post-communism ,2002 **Policy Studies Journal** ,2000 **Policy Dilemmas of Post-Soviet Countries** ,2000 *Transitional Survival Strategies of Peripheral Resource Communities in Hungary and North-Western Russia* Eira Varis,2000 The Potential for Community Restructuring Vesa Rautio,2003 Analyses restructuring of mining communities in Russian North in post Soviet era based on interviews with participants in process Makes comparisons with similar Western processes Covers history of Pechenga region and mining in area and examines privatisation and globalisation of Norilsk Nickel Analyses socio economic changes during 1990s with reference to workers attitudes towards modernisation and their future choices **Whitaker's Books in Print** ,1998 **The Environs of Russian Cities** Grigoriĭ Ioffe,Tat'iĭa Grigor'evna Nefedova,2000 This study focuses on strips of land girding large cities in Russia Applying the term suburb to these strips would generate misleading associations It s Russian counterpart has derived from a centripetal urban orientated migration the Russian Prigorod is stepping stone to the city not out of it as is generally the case in the West
