Contradictions Of Control School Structure And School Knowledge:

Contradictions of Control Linda M. McNeil, 2013-10-14 McNeil traces the poor quality of high school instruction to the tensions between the social control purposes of schooling and the schools educational goals

Contradictions of School Reform Linda McNeil, 2002-09-11 Parents and community activists around the country complain that the education system is failing our children. They point to students' failure to master basic skills even as standardized testing is widely employed in efforts to improve the educational system. *Contradictions of Reform* is a provocative look into the reality for students as well as teachers of standardized testing. A detailed account of how student improvement and teacher effectiveness are evaluated. *Contradictions of Reform* argues compellingly that the preparation of students for standardized tests engenders teaching methods that vastly compromise the quality of education

Exploring Education Alan R. Sadovnik, Peter Cookson, Jr., Susan Semel, Ryan Coughlan, 2017-10-10 This much anticipated fifth edition of *Exploring Education* offers an alternative to traditional foundations texts by combining a point of view analysis with primary source readings. Pre and in service teachers will find a solid introduction to the foundations disciplines: history, philosophy, politics, and sociology of education, and their application to educational issues including school organization and teaching curriculum and pedagogic practices, education and inequality, and school reform and improvement. This edition features substantive updates including additions to the discussion of neo liberal educational policy, recent debates about teacher diversity, updated data and research, and new selections of historical and contemporary readings. At a time when foundations of education are marginalized in many teacher education programs and teacher education reform pushes scripted approaches to curriculum and instruction, *Exploring Education* helps teachers to think critically about the what and why behind the most pressing issues in contemporary education

Review of Research in Education, 1999 **RAOP**, 1987 **Journal of Social Studies Research**, 2001 **Annual Review of Research for School Leaders** MacMillan, 1997-12 Macmillan Reference USA publishes a series of comprehensive handbooks that bring together authoritative research on a variety of educational topics. These titles are all valuable resources for school officials, teachers, public policymakers, and education professors and majors, and are sponsored by professional associations in research and education. Each handbook in the series provides an assessment of the significance of the research findings, evaluates new and emerging developments in the field, examines historical and current conflicts, controversies, and unresolved issues, links findings in one field to related fields, offers articles by professionals, researchers, and educators with firsthand experience, suggests practical ways to apply knowledge in the classroom and workplace. This is the first comprehensive and authoritative overview of research in the burgeoning field of corporate training. Sponsored by the American Psychological Association, *Training and Retraining* contains contributions from professionals in the academic

government and business worlds Bringing together never before published findings and the best practice examples it shows trainers how to apply educational psychology in their work while it educates psychologists on the special problems and concerns faced by trainers today Articles cover ad hoc training practices and cost and effectiveness assessments relevant technologies such as telecommunications and computer applications instructional tactics and strategies and much more
