## **Contributions To Modern Economics:**

**Contributions to Modern Economics** Joan Robinson, 2014-05-10 Contributions to Modern Economics includes contributions to two great intellectual upheavals in economic theory the Keynesian Revolution and the revival of the classical theory of profits led by Piero Sraffa The formation of prices in capitalist and socialist economies and of international trade is also discussed The evolution of these ideas is linked to the personal and historical events that influenced them Comprised of 24 chapters this book begins by describing the second crisis of economic theory which is related to the first crisis the great slump of the 1930s The reader is then introduced to the theory of money and the analysis of output obstacles to full employment and the concept of hoarding Subsequent chapters explore capital profits and prices with emphasis on the theory of capital imperfect competition and the theory of value International trade capitalism and beggar my neighbor remedies for unemployment are also examined This monograph should be of interest to economists *What are the Questions?* Joan Robinson, 1981 A study of environmental degradation this work presents the environmental problems of South Korea The effects of rapid industrialisation and modernisation are documented along with the choices and actions which are available to the country **Further Contributions to Modern Economics** Joan Robinson, 1980 **What are the Questions and Other Essays** Robert K Robinson, 2016-07-01 A study of environmental degradation this work presents the environmental problems of South Korea The effects of rapid industrialisation and modernisation are documented along with the choices and actions which are available to the country *Contribution of Islamic Thought to Modern Economics (Vol. 2)* Misbah Oreibi, 1998-01-01 **Modern Economic Thought** Allan Garfield Gruchy, 1947 *Modern Economic Thought* Allan Garfield Gruchy, 2017-05-21 Excerpt from Modern Economic Thought The American Contribution The movement to reconstruct economics was well established in the United States long before 1929 By 1914 Thorstein Veblen had unfolded the major features of his evolutionary or cultural version of economics In the years before the outbreak of World War I Veblen's disciples who then included Wesley C Mitchell Robert F Hoxie Walton H Hamilton and other less well known economists were enthusiastic in their defense of the new economics which came to be known as institutional economics 2 Academic interest in the new version of economics became so widespread by 1918 that one of the round table conferences of the annual meeting of the American Economic Association of that year was devoted to the topic of institutional economic theory 3 By 1921 Veblen's institutional economics appears to have reached the high level mark of its popularity In the years of prosperity which followed the depression of 1920-21 the movement to reconstruct economics continued to add new members to its list of advocates but it did not slavishly follow the lines drawn in earlier years by Thorstein Veblen Younger exponents of economic heterodoxy such as John M Clark and Rexford G Tugwell brought new emphases to the work of revamping economic thought These new members of the group of economists who were interested in modernizing economic science were prone to be somewhat less speculative and more concerned with immediate economic and social issues than

was Veblen They were more willing to envision economic reform within the limits of the existing private enterprise system Furthermore they began to find various parts of the Veblenian interpretation somewhat outmoded This is not to say however that these younger revisionists of the postwar period had developed a basic approach to economic studies which was different from Veblen s approach On the contrary their work was in its essentials within the Veblenian tradition Like the pioneering leader of the movement to revamp economics About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Making of Modern Economics Mark Skousen, 2016-01-08 This book presents a bold engaging and updated history of economics the dramatic story of how the great economic thinkers built today s rigorous social science Noted financial writer and economist Mark Skousen has revised this popular work now in its third edition This comprehensive yet accessible introduction to the major economic philosophers of the past 225 years begins with Adam Smith and continues through the present day The text examines the contributions made by each individual to our understanding of the role of the economist the science of economics and economic theory Boxes in each chapter highlight little known and entertaining facts about the economists personal lives that had an influence on their work

*Contribution of Islamic Thought to Modern Economics* Misbah Oreibi, 1997 Muslim countries are facing serious problems in managing their economic life Their inherited colonial ways of achieving economic aims are in basic contradiction to certain aspects of Islamic values and intended economic goals Thus it is imperative for Muslim countries endeavoring to escape underdevelopment and social injustice to turn to Islamic teaching and the Islamic way of harnessing human potentials to improve economic conditions and ascertain the necessary requirement for effective economic development Islamic economics as developed by Muslim jurists and social scientists fuqaha needs to be recast in modern terms and developed further to deal with complex realities of the modern society This book is one step on the long march to Islamizing the science of economics It contains a selection of papers from the proceedings of the economic conference held in Cairo in 1988 These papers are a valuable contribution to the cause of modernizing Islamic economics

Paul Samuelson Robert A. Cord, Richard G. Anderson, William A. Barnett, 2020-01-07 A significant part of economics as we know it today is the outcome of battles that took place in the post war years between Keynesians and monetarists In the US the focus of these battles was often between the neo Keynesians at the Massachusetts Institute of Technology MIT and the Chicago monetarists The undisputed leader of the MIT Keynesians was Paul A Samuelson one of the most influential economists of the 20th century and arguably of all time Samuelson s output covered a vast number of
