Teaching English With AI Gusti Astika, 2025-04-27 Teaching English with AI is a practical guide for high school English teachers who want to start using Artificial Intelligence in the classroom. It offers simple, clear strategies to make your lessons more engaging, reduce your workload, and give students more personalized learning without replacing the human touch that makes teaching meaningful. You'll learn how to use AI tools to support students outside class, automate tasks like grading and feedback, and create lessons that match each student's level. From writing help to speaking practice, lesson planning to gamified learning, this book shows how AI can make your job easier and your classroom more exciting. It also addresses real concerns like feeling unsure about AI or wondering how to use it responsibly. With ready-to-use ideas, lesson plans, and an easy action plan, this book will help you feel more confident using AI while keeping students at the heart of your teaching.

Teaching Reading to American Indian/Alaska Native Students Jon Reyhner, 2001 **Productive, Not Polarizing** Heather Kenyon Casey, This book, co-published with the National Science Teaching Association (NSTA), provides the support that K-12 teachers and students need for more complex science investigations. Drawing on research that informs effective literacy practices, this book pushes back on singular ideologies, programs, and divisive rhetoric and instead embraces an inclusive perspective for supporting literacy development and learning. Readers are encouraged to move beyond debates that divide us and look toward the hard but necessary work of building the partnerships needed to support all students. *Productive, Not Polarizing* begins with a focus on community literacies and then describes effective literacy practices across grade levels. Designed for a wide audience, it will assist educators, families, and community partners to have informed conversations about what literacy instruction and learning involves. Every chapter includes a Community Snapshot describing a real-life scenario in which a partnering benefits students, an Ideas for Action section that can be adapted to your own context, reflection questions, and a list of helpful resources that include potential sources of funding. **Book Features:** An accessible, positive discussion of literacy research and practices for educators, families, and community partners. A response to increasingly contentious conversations about literacy instruction. Guidance to help educators engage with key community partners and stakeholders such as administrators, families, childcare centers, afterschool programs, and local school boards. Opportunities to consider the role of teacher education and professional development in supporting school-community conversations. Ready-to-use resources such as reproducible materials and community planning and event guides. **Artful AI in Writing**
