Generative AI in the English Composition Classroom Daniel Plate, Elizabeth Melick, James Hutson, Susan Edele, 2024-09-18 Designed to cater to the needs of both novice and seasoned writing instructors this book provides a range of practical and adaptable strategies for integrating generative artificial intelligence AI into English writing curricula Generative AI in the English Composition Classroom proposes strategic methodologies to ensure that AI is utilized as a facilitator of learning and creativity rather than as a shortcut to academic success With a particular emphasis on sophisticated large language models such as Claude ChatGPT and Gemini this book

critically addresses potential challenges including concerns related to academic integrity. It includes case studies and practical strategies to exemplify how AI can enhance the writing process while emphasizing the continuing importance of a solid foundation in writing structure processes and rhetorical strategies. These case studies and strategies are designed for immediate application, offering educators and students practical tools to effectively navigate AI augmented writing environments. Finally, the book looks to the future, discussing the evolving skillsets required in the workforce and how educators can equip students for a future in which AI is an integral component. A forward thinking and invaluable guide, this book will be of interest to educators involved in teaching English Composition and writing.

Artful AI in Writing Instruction
Brett Vogelsinger, 2025-05-14

Discover strategies to use AI thoughtfully in every stage of the writing process without compromising creativity or critical thinking. Feeling conflicted about integrating artificial intelligence (AI) into your writing instruction? You're not alone. In a world where AI-generated text can seem like a writing teacher's enemy, incorporating it into writing instruction may feel like an act of betrayal. The advent of generative AI might feel like one more thing eroding students' capacity for deep thinking. *Artful AI in Writing Instruction* offers strategies and lessons for middle and high school teachers to harness AI in a positive way, integrating it into the writing process and evaluating the ethics of its usage. Written by a full-time high school teacher, Brett Vogelsinger, the book focuses on evergreen principles and ideas rather than specific AI tools, providing concrete steps and lessons that teachers can implement without being technology experts. Acknowledging the varying perspectives of teachers on AI in writing instruction, from skepticism to enthusiasm, Brett offers a human-centered, considered, and ethical approach to using generative AI in the classroom. Demonstrating how AI can be used artfully in the classroom to enhance students' writing skills and foster reflection on the writing process, this book provides standards-aligned lessons that detail how AI can support instruction and assist students at each step of the writing process, from prewriting through publishing. Emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom. Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction. Includes chapter features such as quotes from esteemed writers, real teacher and student voices, cautionary notes, and Bot Thoughts (entries of example AI output). *Artful AI in Writing Instruction* is a book that explores technology with humility, critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development.

Generative AI in Writing Education
Dylan Medina, 2024-10-02

This book provides a theoretical framework to allow educators, researchers, and policymakers to better understand computer-generated writing and the policy and pedagogical implications of generative AI. Generative AI, such as ChatGPT and Gemini, has substantially disrupted educational spaces, forcing educators, policymakers, and other stakeholders to reconsider writing and how it should be used in education. Responding to this disruption, this book provides technically sound guidance on how various stakeholders should engage with generative AI. After providing a foundational and technical

discussion of the technology this book directly addresses the educational context Informed by theories of learning and knowledge transfer and utilizing rhetorical theories of writing this book assesses the impact of AI on student learning student performance and academic honesty and integrity In doing so the book outlines how generative AI can be both a help and a hindrance for students enabling readers to craft informed and meaningful policies and successfully integrate AI in the composition classroom This book will be of interest to scholars in the fields of Rhetoric and Composition Technical Writing Communication Studies Linguistics and TESOL as well as to Education and Machine Learning policymakers program directors and researchers
