Learning English with AI Gusti Astika, 2025-04-27 *Learning English with AI* is a practical and inspiring guide for high school and college students in Indonesia and beyond who want to boost their English skills using the power of Artificial Intelligence. This book makes learning English easier, faster, and more fun with the help of smart student-friendly tools. Through ten simple chapters, students will discover how AI can support everyday practice, improve writing and speaking, and personalize their learning journey. From chatbots to games, stories to simulations, each chapter offers hands-on activities that build confidence in reading, writing, speaking, and listening. More than just a language guide, this book also teaches students how to use AI safely and wisely, encouraging critical thinking, creativity, and responsible use. By the end, learners will be able to create their own AI-powered study plans and feel proud of how far they've come. With AI as a learning partner, mastering English becomes more exciting and empowering than ever.

Learn AI-Assisted Python Programming, Second Edition

Leo Porter, Daniel Zingaro, 2024-10-29 See how an AI assistant can bring your ideas to life immediately. Once to be a programmer, you had to write every line of code yourself. Now tools like GitHub Copilot can instantly generate working programs based on your description in plain English. An instant bestseller, *Learn AI-Assisted Python Programming* has taught thousands of aspiring programmers how to write Python the easy way with the help of AI. It's perfect for beginners or anyone who's struggled with the steep learning curve of traditional programming. In *Learn AI-Assisted Python Programming, Second Edition*, you'll learn how to write fun and useful Python applications, no programming experience required. Use the GitHub Copilot AI coding assistant to create Python programs. Write prompts that tell Copilot exactly what to do. Read Python code and understand what it does. Test your programs to make sure they work the way you want them to. Fix code with prompt engineering or human tweaks. Apply Python creatively to help out on the job. AI moves fast, and so the new edition of *Learn AI-Assisted Python Programming, Second Edition* is fully updated to take advantage of the latest models and AI coding tools. Written by two esteemed computer science university professors, it teaches you everything you need to start programming Python in an AI-first world. You'll learn skills you can use to create working apps for data analysis, automating tedious tasks, and even video games. Plus, in this new edition, you'll find groundbreaking techniques for breaking down big software projects into smaller tasks AI can easily achieve. Foreword by Beth Simon. About the technology: The way people write computer programs has changed forever. Using GitHub Copilot, you describe in plain English what you want your program to do, and the AI generates it instantly. About the book: This book shows you how to create and improve Python programs using AI, even if you've never written a line of computer code before. Spend less time on the slow, low-level programming details and instead learn how an AI assistant can bring your ideas to life immediately. As you go, you'll even learn enough of the Python language to understand and improve what your AI assistant creates. What's inside: Prompts for working code. Tweak code manually and with AI help. AI test your programs. Let AI handle tedious details. About the reader: If you can move files around on your

computer and install new programs you can learn to write useful software About the author Dr Leo Porter is a Teaching Professor at UC San Diego Dr Daniel Zingaro is an Associate Teaching Professor at the University of Toronto The technical editor on this book was Peter Morgan Table of Contents 1 Introducing AI assisted programming with GitHub Copilot 2 Getting started with Copilot 3 Designing functions 4 Reading Python code Part 1 5 Reading Python code Part 2 6 Testing and prompt engineering 7 Problem decomposition 8 Debugging and better understanding your code 9 Automating tedious tasks 10 Making some games 11 Creating an authorship identification program 12 Future directions Values Information from AI The Values We Share Project, Values information from AI is a collection of information and images of values generated from an AI tool as part of The Values We Share Project to promote values All information in this book can be used to promote values and can be used as material in values formation programs All information in this book will also be used in The Values We Share Project videos materials and courses in the future Visit The Values We Share Project at <http://thevaluesweshare.info>
