No Bs Youtube Shorts Ideas For Beginners In Usa:

No bullshit guide to math and physics Ivan Savov, 2014-08-07 Often calculus and mechanics are taught as separate subjects. It shouldn't be like that. Learning calculus without mechanics is incredibly boring. Learning mechanics without calculus is missing the point. This textbook integrates both subjects and highlights the profound connections between them. This is the deal: Give me 350 pages of your attention and I'll teach you everything you need to know about functions, limits, derivatives, integrals, vectors, forces, and accelerations. This book is the only math book you'll need for the first semester of undergraduate studies in science. With concise, jargon-free lessons on topics in math and physics, each section covers one concept at the level required for a first-year university course. Anyone can pick up this book and become proficient in calculus and mechanics regardless of their mathematical background.

Producing and Directing the Short Film and Video David K. Irving, Peter W. Rea, 2013-03-20 Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director and explains how their separate energies must combine to create a successful short film or video from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing, sources, distributors, film and video festivals, film schools, internet sources for short works, and professional associations.

Brand Storytelling Keith A. Quesenberry, Michael K. Coolsen, 2023-02-14 This innovative new text introduces students to the power of storytelling and outlines a process for creating effective brand stories in a digital-first integrated marketing communications plan. From the earliest works on storytelling to the latest research, this text explains why and how storytelling works, the forms storytelling takes, and how to develop an integrated advertising, PR, and strategic marketing communications campaign that leverages the power of story within the reality of today's digital-first media landscape. Keith A. Quesenberry and Michael K. Coolsen present a balance of research and theory with practical application and case studies within a classroom-friendly framework for undergraduate or graduate courses or for the marketing communications professional looking for a guide to integrate storytelling into their brand communications. Emphasizing digital and social media perspectives in the strategic planning and campaign process, Brand Storytelling also surveys TV, radio, outdoor, print opportunities as well as earned, shared, owned, and paid media. Features: Chapters introduce discipline foundations through key figures; main content sections explaining concepts with examples, templates, and stats; a main case study; questions for consideration; and list of key concepts for review. Coverage of new technologies in Web3 such as NFTs, cryptocurrency, media streaming, CTV, and the metaverse. ChatGPT and DALL-E 2. Key terms are bolded and defined throughout and featured in a glossary along with an index of key concepts, figures, companies, and cases for easy reference.

Plan campaign research addresses evaluation and optimization of IMC execution including descriptive predictive and prescriptive analytics Instructor resources include chapter outlines learning objectives test banks slides forms template worksheets example assignments and syllabi

Dark Beyond Darkness James G. Blight,janet M. Lang,2017-12-22 In *Dark Beyond Darkness* James Blight and Janet Lang among the world's foremost authorities on the Cuban missile crisis synthesize the findings from their thirty year project on the most dangerous moment in recorded history Authoritative accessible and written with their usual flair and wit DBD is the first book to take readers deeply inside the experience and calculations of Fidel Castro who was willing to martyr Cuba if his new Russian ally would nuke the U S and destroy it Blight and Lang have established that in October 1962 the world was on the brink of Armageddon and that we escaped by luck Their history is scary but unimpeachably accurate we just barely escaped the cold and the dark in October 1962 Their history also comes with a warning we are currently at risk not only of Armageddon fast in a war between superpowers but Armageddon in Slow Motion the result a climate catastrophe following a regional nuclear war and from Armageddon Oops a conflict sparked by an accident which is misinterpreted and ends in nuclear war Drawing on the insights of poets musicians and novelists as well as climate scientists and agronomists they show the terrible risk we run by refusing to abolish nuclear weapons
