Writing and Editing for Digital Media Brian Carroll, 2025-12-12 An essential guide to writing and editing for digital media this sixth edition responds to the mainstreaming of genAI Generative AI and LLMs Large Language Models among many other changes in the best practices of digital storytelling Carroll explains and demonstrates how to effectively write for digital spaces and places that typically abound with graphical content multimedia and hypertextual interactive elements He also combines hands on practical exercises with information on key topics such as misinformation and disinformation and the proliferation of artificial intelligence This new edition specifically explores the ethical questions raised by AI as well as the new possibilities it presents Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi directional communication It also speaks to writers editors public relations practitioners and social media managers and marketers Updated with contemporary examples and new pedagogy throughout this is the ideal handbook for students seeking careers in digital media particularly in content development and digital storytelling It is an essential text for students of media communication public relations marketing and journalism who are looking to develop their writing and editing skills for these ever evolving fields and professions This book also has accompanying Support Material that offers additional weekly activities and assignments providing students additional opportunity to put theory into practice [The Elgar Companion to Applied AI Ethics](#) Christoph Lütge, Alexander Kriebitz, Raphael Max, Caitlin C. Corrigan, 2024-11-08 This timely Companion provides a comprehensive overview of the relationship between applied ethics and the development and use of Artificial Intelligence AI Adopting a holistic approach an array of global experts identify the norms at stake map the legal landscape and contextualize normative expectations in relevant use cases of AI **Assembling Tomorrow** Scott Doorley, Carissa Carter, Stanford d.school, 2024-06-18 A powerful guide to why even the most well intentioned innovations go haywire and the surprising ways we can change course to create a more positive future by two celebrated experts working at the intersection of design technology and learning at Stanford University's acclaimed d.school This brilliant book offers a new approach to all creative work that will expand your understanding of what it means to make and open up possibilities you didn't know existed it did for me Adam Johnson Pulitzer Prize winning author of The Orphan Master's Son In Assembling Tomorrow authors Scott Doorley and Carissa Carter explore the intangible forces that prevent us from anticipating just how fantastically technology can get out of control and what might be in store for us if we don't start using new tools and tactics Despite our best intentions our most transformative innovations tend to have consequences we can't always predict From the effects of social media to the uncertainty of AI and the consequences of climate change the outcomes of our creations ripple across our lives Time and again our seemingly ceaseless capacity to create rubs up against our limited capacity to understand our impact Assembling Tomorrow explores how to use readily accessible tools to both mend the mistakes of our

past and shape our future for the better We live in an era of runaway design where innovations tangle with our lives in unpredictable ways This book explores the off kilter feelings of today and follows up with actionables to alter your perspective and help you find opportunities in these turbulent times Mixed throughout are histories of the future short pieces of speculative fiction that imagine the future as if it has already happened and consider the past with a critical yet hopeful eye so that all of us as designers of our own futures can create a better world for generations to come

A Companion to Public Philosophy Lee McIntyre, Nancy McHugh, Ian Olasov, 2025-11-26 The first anthology devoted to the theory and practice of all forms of public philosophy A Companion to Public Philosophy brings together in a single volume the diverse practices modalities and perspectives of this rapidly growing field Forty two chapters written by established practitioners and newer voices alike consider questions ranging from the definition of public philosophy to the value of public philosophy to both society and philosophy itself Throughout the book philosophers offer insights into the different publics they have engaged the topics they have explored the methods they have used and the lessons they have learned from these engagements The Companion explores important philosophical issues concerning the practice of philosophy in the public sphere how public philosophy relates to advocacy philosophical collaborations with political activists locations where public philosophy can be done and more Many essays highlight underserved topics such as effective altruism fat activism trans activism indigenous traditions and Africana philosophy while other essays set the stage for rigorous debates about the nature value and philosophical significance of the practice of public philosophy A Companion to Public Philosophy is essential reading for philosophers from all walks of life who are invested in and curious about the ways that philosophy can impact the public and how the public can impact philosophy It is also an excellent text for undergraduate and graduate courses on the theory and practice of public philosophy as well as broader courses on philosophy normative ethics and comparative and world philosophy

Human Extinction Émile P. Torres, 2023-06-15 This volume traces the origins and evolution of the idea of human extinction from the ancient Presocratics through contemporary work on existential risks Many leading intellectuals agree that the risk of human extinction this century may be higher than at any point in our 300 000 year history as a species This book provides insight on the key questions that inform this discussion including when humans began to worry about their own extinction and how the debate has changed over time It establishes a new theoretical foundation for thinking about the ethics of our extinction arguing that extinction would be very bad under most circumstances although the outcome might be on balance good Throughout the book graphs tables and images further illustrate how human choices and attitudes about extinction have evolved in Western history In its thorough examination of humanity s past this book also provides a starting point for understanding our future Although accessible enough to be read by undergraduates Human Extinction contains new and thought provoking research that will benefit even established academic philosophers and historians
