Computational Practices and Applications for Digital Art and Crafting Hai-Jew, Shalin,2024-07-17 In the current technology age individuals and organizations need to utilize digital tools and resources to foster innovation and effectively address challenges However the realm of digital art and crafting is complex and it requires a deep understanding of the tools and techniques and the social and economic factors that influence these practices *Computational Practices and Applications for Digital Art and Crafting* is a comprehensive guide that offers a roadmap for digital makers and educators to navigate this dynamic field This book covers various topics from standard digital art practices to generative AI in art making It provides practical guidance for digital makers teachers and managers of maker spaces helping them to enhance their skills and stay relevant in the ever changing digital landscape

Art Libraries Journal ,2006

What Are Artificial Intelligence Video Generation Platforms, How To Produce Artificial Intelligence-Generated Videos, How To Earn Revenue As A Content Creator Of Artificial Intelligence-Generated Videos, And The Benefits Of Producing Artificial Intelligence-Generated Videos Dr. Harrison Sachs,2025-05-15 This essay sheds light on what are artificial intelligence video generation platforms explicates how to produce artificial intelligence generated videos elucidates how to earn revenue as a content creator of artificial intelligence generated videos and delineates the benefits of producing artificial intelligence generated videos

Succinctly stated artificial intelligence video generation platforms are platforms that can be harnessed by content creators to generate artificial intelligence generated videos Artificial intelligence video generation platforms are able to streamline the process of producing videos Furthermore artificial intelligence video generation platforms are also able to aid content creators in significantly reducing their video production costs This is attributable to it bearing significantly lower video production costs for content creators to generate artificial intelligence generated videos via artificial intelligence video generation platforms than to manually produce the videos Moreover artificial intelligence video generation platforms are also able to aid content creators in bringing their lofty creative visions for enthralling videos to fruition in an expeditious manner Artificial intelligence video generation platforms are also able to aid content creators in profusely producing content Content creators can generate an exorbitant amount of videos on a daily basis by harnessing artificial intelligence video generation platforms to generate artificial intelligence generated videos Artificial intelligence video generation platforms have a copious amount of video production features and video editing features The totality of video production features and video editing features can vary from video generation platform to video generation platform Artificial intelligence video generation platforms are capable of dubbing videos into disparate foreign languages Dubbing videos into disparate foreign languages can render it possible for videos to be at a higher probability to appeal to a broader audience on social media platforms In 2024 it was estimated that about 1 520 000 000 people worldwide speak English Artificial intelligence video generation platforms are also capable of automatically generating captions for videos Certain people prefer to view videos on social media platforms with the captions enabled on them Artificial intelligence video generation platforms are capable of integrating artificial intelligence voices into videos Artificial intelligence voices are able to furnish videos with voice over narrations Artificial intelligence video generation platforms are also capable of integrating artificial intelligence avatars into videos An artificial intelligence avatar is able to fulfill the role of an artificial intelligence presenter in the videos by conveying the information in the videos to viewers Artificial intelligence video generation platforms are also capable of integrating animations into videos Some of the disparate types of animations that artificial intelligence video generation platforms are capable of integrating into videos encompass 2D animations 3D animations and abstract animations Artificial intelligence video generation platforms are able to aid content creators in producing bespoke videos Producing bespoke videos with the utilization of artificial intelligence video generation platforms is a seamless process It is a cinch for content creators to edit their videos on artificial intelligence video generation platforms The video editing features on artificial intelligence video generation platforms are not limited to basic video editing features It is even possible for a content creator to alter the camera angles and camera movements in his videos via artificial intelligence video generation platforms Furthermore it is also even possible for a content creator to change the video backgrounds in his videos via artificial intelligence video generation platforms Moreover it is also even possible for a content creator to adjust the camera

stabilization level in his videos via artificial intelligence video generation platforms Artificial intelligence video generation platforms are platforms that can be harnessed by content creators to generate a copious amount of enthralling viral worthy share worthy like worthy engagement worthy algorithm recommendation worthy videos on a daily basis **Online Virality** Valérie Schafer, Fred Pailler, 2024-08-19 The book *Online Virality* edited by Valérie Schafer and Fred Pailler C2DH University of Luxembourg aims to provide a comprehensive examination of online virality It explores the many ways we can think about this modern phenomenon and analyse the circulation reception and evolution of viral born digital content Virality and content sharing always intertwine material infrastructural visual and discursive elements This involves various platforms stakeholders intermediaries social groups and communities that are constantly re defining themselves Regulation curation and content moderation politics as well as affects and emotions fears humour empathy hatred are also at the core of online virality The publication offers an interdisciplinary overview on online virality by including different types of scientific inputs such as precise case studies various methodological approaches including close and distant reading visual studies discourse analysis etc as well as historical and socio technical analyses The book is organised around three main topics Expressions and Genres Mobilisations and Engagements Circulation and Infrastructures The first part explores the semiotics of virality the diverse and creative forms of expression specific genres the relation to other media and the affective side of virality such as using humour or provocation The second part focuses on the political dimension of memes and viral content and their use in the context of controversy or political and ideological opposition Finally the third part delves into the often understudied but essential side of virality by examining the role of platforms and their curation in short the infrastructural dimension of virality These three parts allow us to question such fundamental notions linked to virality as among others circulation reception economy of attention instrumentalisation and affect This volume brings together authors from various disciplines including semiotics history information and communication sciences computer science digital humanities media studies In addition the contributors approach the question via case studies that allow for a perspective that is not exclusively US and European centred Some chapters explore virality in Brazil Chile while the book also examines a wide variety of platforms YouTube Twitter Instagram TikTok video game platforms etc
