pursuing the threads with which queer authors and activists stitched their fantasies about uniforms Jeffrey Schneider offers fresh perspectives on key debates over military secrecy disciplinary abuses in the army and German militarism Drawing on a vast trove of materials ranging from sexological case studies trial transcripts and parliamentary debates to queer activist tracts autobiographies and literary texts *Uniform Fantasies* uncovers a particularly modern set of concerns about such topics as outing closeted homosexuals the presence of gay men in the military and whether men in uniform are more masculine or more insecure about their sexual identity

Blasian Invasion Myra S. Washington, 2017-10-26 Myra S Washington probes the social construction of race through the mixed race identity of Blasians people of Black and Asian ancestry She looks at the construction of the identifier Blasian and how this term went from being undefined to forming a significant role in popular media Today Blasian has emerged as not just an identity Black Asian mixed race people can claim but also a popular brand within the industry and a signifier in the culture at large Washington tracks the transformation of Blasian from being an unmentioned category to a recognized status applied to other Blasian figures in media Blasians have been neglected as a meaningful category of people in research despite an extensive history of Black and Asian interactions within the United States and abroad Washington explains that even though Americans have mixed in every way possible racial mixing is framed in certain ways which almost always seem to involve Whiteness Unsurprisingly media discourses about Blasians mostly conform to usual scripts already created reproduced and familiar to audiences about monoracial Blacks and Asians In the first book on this subject Washington regards Blasians as belonging to more than one community given their multiple histories and experiences Moving beyond dominant rhetoric she does not harp on defining or categorizing mixed race but instead recognizes the multiplicities of Blasians and the process by which they obtain meaning Washington uses celebrities including Kimora Lee Dwayne Johnson Hines Ward and Tiger Woods to highlight how they challenge and destabilize current racial debate create spaces for themselves and change the narratives that frame multiracial people Finally Washington asserts Blasians as evidence not only for the fluidity of identities but also for the limitations of reductive racial binaries
