Campaign Finance Reform Anthony Corrado, 2001

Inside the Campaign Finance Battle Anthony Corrado, Thomas E. Mann, Trevor Potter, 2004-05-26 In 2002 Congress enacted the Bipartisan Campaign Reform Act BCRA the first major revision of federal campaign finance law in a generation In March 2001 after a fiercely contested and highly divisive seven year partisan legislative battle the Senate passed S 27 known as the McCain Feingold legislation The House responded by passing H R 2356 companion legislation known as Shays Meehan in February 2002 The Senate then approved the House passed version and President George W Bush signed BCRA into law on March 27 2002 stating that the bill had flaws but overall improves the current system of financing for federal campaigns The Reform Act was taken to court within hours of the President's signature Dozens of interest groups and lawmakers who had opposed passage of the Act in Congress lodged complaints that challenged the constitutionality of virtually every aspect of the new law Following review by a special three judge panel the case is expected to reach the U S Supreme Court in 2003 This litigation constitutes the most important campaign finance case since the Supreme Court issued its decision in *Buckley v Valeo* more than twenty five years ago The testimony submitted by some of the country's most knowledgeable political scientists and most experienced politicians constitutes an invaluable body of knowledge about the complexities of campaign finance and the role of money in our political system Unfortunately only the lawyers political scientists and practitioners actually involved in the litigation have seen most of this writing until now Inside the Campaign Finance Battle makes key

litigation challenging its constitutionality      **The Fundamentals of Campaign Finance in the U.S.** Diana Dwyre, Robin Kolodny, 2024-07-23 Before the U S campaign finance system can be fixed we first have to understand why it has developed into the system as it exists today The nature of democracy itself the American capitalist economic system the content of the U S Constitution and how it is interpreted the structure of our governmental institutions the competition for governmental power and the behavior of campaign finance actors have all played a role in shaping the system The Fundamentals of Campaign Finance in the U S takes care to situate the campaign finance system in the context of the broader U S political and economic system Dwyre and Kolodny offer readers a brief tour through the development of the campaign finance regulatory structure highlighting the Supreme Court s commitment to free speech over political equality from Buckley v Valeo 1976 through the passage of the Bipartisan Campaign Reform Act BCRA 2002 They also examine the driving force behind campaign finance reform corruption through historical transactional and institutional perspectives While diving into the insufficiency of the disclosure and enforcement of campaign finance laws and calling attention to multiple federal agencies including the Securities and Exchange Commission the Federal Communications Commission the Internal Revenue Service and principally the Federal Election Commission the authors show how a narrow view on campaign finance makes change difficult and why reforms often have limited success By examining the fundamentals Dwyre and Kolodny show the difficulties of changing a political system whose candidates have always relied on private funding of campaigns to one that guarantees free speech rights while minimizing concerns of corruption      Financing the 2008 Election David B. Magleby, Anthony Corrado, 2011-06-01 The 2008 elections were by any standard historic The nation elected its first African American president and the Republicans nominated their first female candidate for vice president More money was raised and spent on federal contests than in any election in U S history Barack Obama raised a record setting 745 million for his campaign and federal candidates party committees and interest groups also raised and spent record setting amounts Moreover the way money was raised by some candidates and party committees has the potential to transform American politics for years to come The latest installment in a series that dates back half a century Financing the 2008 Election is the definitive analysis of how campaign finance and spending shaped the historic presidential and congressional races of 2008 It explains why these records were set and what it means for the future of U S politics David Magleby and Anthony Corrado have assembled a team of experts who join them in exploring the financing of the 2008 presidential and congressional elections They provide insights into the political parties and interest groups that made campaign finance history and summarize important legal and regulatory changes that affected these elections Contributors Allan Cigler University of Kansas Stephanie Perry Curtis Brigham Young University John C Green Bliss Institute at the University of Akron Paul S Herrnson University of Maryland Diana Kingsbury Bliss Institute at the University of Akron Thomas E Mann Brookings Institution      **Campaigns and Elections** Stephen K. examining trends in voting behavior party identification and ideology A capstone essay by Leon Epstein the dean of American party scholars reviews the ongoing quest for responsible partisanship over the past half century These contributors offer a mixed assessment of the two party system showing that parties are in many respects stronger at the national level than they were in 1950 but not necessarily more responsible The most comprehensive description and analysis of American parties now available Responsible Partisanship should become required reading for all students and citizens concerned with making parties more accountable instruments of government
