Campaigns A Century Of Presidential Races:

Campaigns Edward L. Widmer, 2001 An unprecedented look back at a century of presidential races from the photo archives of The New York Times Over the course of the century The New York Times has reported American presidential campaigns and how they have evolved from William McKinley's historic front porch campaign to the media and money powered campaigns of today Here The Times has delved into its impressive archives to shape a unique picture of the race for the White House from 1900 to the historic election of 2000 Over 350 incredible election photographs drawn largely from The Times highlight campaign trail whistlestops behind the scenes meetings rallies and conventions victory celebrations and concessions Campaigns also includes 75 photographs of campaign memorabilia some quite rare from private and university collections Reproductions of the actual New York Times front pages that covered each victory are followed by transcriptions of the lead stories providing a fascinating glimpse into the political and social fabric of the time Featuring an in depth introduction and discussion of the 1992 to 2000 campaigns by author and historian Alan Brinkley and insightful commentary on each race from 1900 to 1988 by Ted Widmer Campaigns enriches our understanding of the personalities strategies and policies of the men who sought to lead our nation The book covers the Bush Gore election in full with 32 pages of pictures and text including an extended analysis by Professor Brinkley and 25 New York Times front pages from election day to decision day As a new president starts his first term in office at the dawn of a new millennium following the longest and perhaps most controversial election in America's history this visually stunning and historic book will remain a valuable resource and collector's item for years to come

Presidential Races Arlene Morris-Lipsman, 2011-07-01 Describes how election campaigns for the office of president of the United States have changed from the time of George Washington to the Obama vs McCain campaign of 2008

Campaigning in the Twenty-First Century
Dennis W. Johnson, Professor Emeritus of Political Management
Dennis W Johnson, 2011-01-31

So much has changed during the past decade in political campaigning that we can almost say it s a whole new ball game This book analyzes the way campaigns were traditionally run and the extraordinary changes that have occurred in the last decade Dennis W Johnson looks at the most sophisticated techniques of modern campaigning micro targeting online fundraising digital communication the new media and examines what has changed how those changes have dramatically transformed campaigning and what has remained fundamentally the same despite new technologies and communications Campaigns are becoming more open and free wheeling with greater involvement of activists and average voters alike But they can also become more chaotic and difficult to control Campaigning in the Twenty First Century presents daunting challenges for candidates and professional consultants as they try to get their messages out to voters Ironically the more open and robust campaigns become the

greater is the need for seasoned flexible and imaginative professional consultants 21st Century Political Science: A Reference Handbook John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions

Presidential Campaigns Paul F. Boller, 1984 Campaigning for the presidency demands strength and courage Teddy Roosevelt was once shot in the chest just before a campaign speech but he insisted on delivering his hour and a half oration anyway Presidential nominees have to know how to play the game moreover whether they care for it or not When Andrew Jackson was visiting one town according to a campaign tale a proud mother handed a dirty faced baby up for him to hold Here is a beautiful specimen of young American childhood said Jackson obligingly Note the brightness of that eye the great strength of those limbs and the sweetness of those lips Then he handed the baby to his friend John Eaton Kiss him Eaton he cried and walked away And all presidential hopefuls have to find ways of smoothing over the unfortunate gaffes they sometimes commit During the 1992 campaign Bill Clinton provoked so much mirth when he said he once tried marijuana but found he couldn't inhale that he subsequently appeared on television to play his saxophone and told the host he took up the instrument because it didn't require inhaling You blow out Now in a revised and updated edition this enlightening and endlessly entertaining book unveils the whole history of American presidential elections from Washington to Clinton those clamorous showdowns that have so perplexed pleased amused irked and fascinated the American people from the very beginning As Charles Dickens observed American voters are scarcely finished with one campaign when they start in on another Presidential Campaigns brings these boisterous contests to life in all their richness and complexity In the old days Boller shows campaigns were much rowdier than they are today Back in the nineteenth century the invective at election time was exuberant and the mudslinging unrestrained a candidate might be called everything from a carbuncle faced old drunkard to a howling atheist But there was plenty of fun and games too with songs slogans rallies leaflets torchlight parades picnics and inescapably a lot of hyperbolic oratory livening up the scene as party workers sought to get people to the polls Despite the mudslinging and hot air however many of the campaigns touched off popular debates about vital public issues and there were many candidates like Adlai E Stevenson in 1952 who insisted on talking sense to the American people Presidential Campaigns takes note of the serious side of the elections even as it documents the frenzy the frolic and the sleaze Each chapter contains a brief essay describing every election from 1789 to 1992 and then presents some campaign highlights songs poems slogans jokes and anecdotes that help bring to life the quadrennial confrontation in all its shame and glory Presidential Campaigns makes one thing clear the great American shindig as one Englishman called it is for all its shortcomings an essential part of the American democratic system and for better or for worse tells us much about ourselves

Presidential Campaigns Paul F. Boller, 2004-07-22 Presidential Campaigns devotes a chapter to each of America's elections from George Washington's in 1789 to George W Bush's in 2000 dealing with the candidates the conventions the

party platforms the speeches and the reasons for the victories and defeats on election day The book contains campaign highlights too singling out for special attention the gaffes surprises dramatic events and novel ways of vote chasing that turned up in each campaign With a postscript analyzing the major changes in the ways Americans have conducted their campaigns through the years Presidential Campaigns shows that for all their shortcomings America s quadrennial races represent a basic feature of the American system and for better or worse reveal a great deal about the nature of the American people and their culture Jacket

Why Populism? Paul Kenny, 2023-04-06 The rise to power of populists like Donald Trump is usually attributed to the shifting values and policy preferences of voters the demand side Why Populism shifts the public debate on populism and examines the other half of the equation the supply side Kenny argues that to understand the rise of populism is to understand the cost of different strategies for winning and keeping power For the aspiring leader populism appealing directly to the people through mass communication can be a quicker cheaper and more effective strategy than working through a political party Probing the long history of populism in the West from its Ancient Greek roots to the present this highly readable book shows that the economic laws of populism are constant Forget ideology Forget resentment Forget racism or sexism Populism the author writes is the result of a hidden strategic calculus

Responsible Partisanship? John

Clifford Green, Paul S. Herrnson, 2002 More than fifty years have passed since the American Political Science Association published *Toward a More Responsible Two Party System* a controversial report that addressed the lack of national cohesion within the major parties Although parties have changed a great deal since then they remain a critical component of American democracy While the possibilities and limits of responsible party government have been central topics in the literature since 1950 this book is the first to reassess all aspects of the APSA report Here a distinguished group of scholars among them Charles O Jones Barbara Sinclair Frank J Sorauf John Bibby and Gerald Pomper examine the effectiveness accountability and relevance of parties to the democratic process These articles cover all major relevant topics focusing on recent changes in laws that govern parties innovations in party organization party finance and the relationships among political consultants and parties They examine the place of the party in government including chapters on the changing role of parties in Congress and in the presidency and also consider the roles of parties among the electorate examining trends in voting behavior party identification and ideology A capstone essay by Leon Epstein the dean of American party scholars reviews the ongoing quest for responsible partisanship over the past half century These contributors offer a mixed assessment of the two party system showing that parties are in many respects stronger at the national level than they were in 1950 but not necessarily more responsible The most comprehensive description and analysis of American parties now available *Responsible Partisanship* should become required reading for all students and citizens concerned with making parties more accountable instruments of government
