Campo Aleman The First Ten Years Of Anaheim:

Campo Aleman, the First Ten Years of Anaheim Leo J. Friis, 1983 **A History of Wine in America, Volume 1** Thomas Pinney, 2007-09-17 The Vikings called North America Vinland the land of wine Giovanni de Verrazzano the Italian explorer who first described the grapes of the New World was sure that they would yield excellent wines And when the English settlers found grapes growing so thickly that they covered the ground down to the very seashore they concluded that in all the world the like abundance is not to be found Thus from the very beginning the promise of America was in part the alluring promise of wine How that promise was repeatedly baffled how its realization was gradually begun and how at last it has been triumphantly fulfilled is the story told in this book It is a story that touches on nearly every section of the United States and includes the whole range of American society from the founders to the latest immigrants Germans in Pennsylvania Swiss in Georgia Minorcans in Florida Italians in Arkansas French in Kansas Chinese in California all contributed to the domestication of Bacchus in the New World So too did innumerable individuals institutions and organizations Prominent politicians obscure farmers eager amateurs sober scientists these and all the other kinds and conditions of American men and women figure in the story The history of wine in America is in many ways the history of American origins and of American enterprise in microcosm While much of that history has been lost to sight especially after Prohibition the recovery of the record has been the goal of many investigators over the years and the results are here brought together for the first time In print in its entirety for the first time A History of Wine in America is the most comprehensive account of winemaking in the United States from the Norse discovery of native grapes in 1001 A D through Prohibition and up to the present expansion of winemaking in every state [A History of Wine in America from the Beginnings to Prohibition](#) Thomas Pinney, 1989-01-01 Tells the story of vitaculture and winemaking in America and discusses the individuals organizations and institutions associated with the enterprise **Historic Spots in California** Douglas E. Kyle, Hero Eugene Rensch, Ethel Grace Rensch, Mildred Brooke Hoover, William Abeloe, 2002-09-06 The only complete guide to the historical landmarks of California this standard work has now been thoroughly revised and updated The edition is enriched by some 200 photographs most of which were taken by the reviser and all of which are new to this edition Since the last revision in 1990 enormous changes have taken place within the state many landscapes and buildings have been greatly altered and some are no longer in existence Every effort has been made through personal observation to record the present condition of the landmarks and to provide clear and accurate descriptions of their locations The text is written with the idea that the reader might use the book while traveling around the state and thus mileage and signposts have been given where it was thought helpful For this new edition the reviser has added additional information on the state s geography the presence of Native Americans and state and local museums To provide historical background the reviser has written a short historical overview The chapters of the book are organized by county in alphabetical order A rough chronology is followed for each county beginning with

pertinent facts on geography continuing with Native American life the coming of the Spaniards and other Europeans the American conquest of the 1840s and in those areas where it had a major impact the gold rush The text then continues into the period of intensive agricultural development railroads industrialization the growth of cities the effects of World War II and on into more recent times The bibliography like the text has been updated to 2001 and includes some of the established classics in California history as well as more recent material Reviews of the Fourth Edition Prodigious in detail and scope this is the definitive guide to historical landmarks in California and a valuable resource not only for travelers but also for anyone interested in California history California Highways This is an outstanding and accessible piece of scholarship one that every student of California will value San Francisco Chronicle Kyle and Stanford University Press are to be lauded for this monumental undertaking Southern California Quarterly

The City of Vines Thomas Pinney, 2017-12-07 The author of A History of Wine in America recounts the beginnings of California's wine trade in the once isolated pueblo now called Los Angeles Winner of the 2016 California Historical Society Book Award With incisive analysis and a touch of dry humor The City of Vines chronicles winemaking in Los Angeles from its beginnings in the late eighteenth century through its decline in the 1950s Thomas Pinney returns the megalopolis to the prickly pear studded lands upon which Mission grapes grew for the production of claret port sherry angelica and hock From these rural beginnings Pinney reconstructs the entire course of winemaking in a sweeping narrative punctuated by accounts of particular enterprises including Anaheim's foundation as a German winemaking settlement and the undertakings of vintners scrambling for market dominance Yet Pinney also shows Los Angeles's wine industry to be beholden to the forces that shaped all California under the flags of Spain Mexico and the United States colonial expansion dependent on labor of indigenous peoples the Gold Rush population boom transcontinental railroads rapid urbanization and Prohibition This previously untold story uncovers an era when California wine meant Los Angeles wine and reveals the lasting ways in which the wine industry shaped the nascent metropolis

The Grapes of Conquest Julia Ornelas-Higdon, 2023-11 The Grapes of Conquest examines the origins of the wine industry at the California missions as well as its subsequent commercialization in nineteenth century California under Mexican and American governance
