achieve Women's Colleges and Universities in a Global Context Kristen A. Renn, 2014-10-13 A pathbreaking study of the critical role women's institutions play in global higher education Educating girls and women is a powerful route to improving societies worldwide When women receive more education literacy rates in children rise maternal and infant death rates drop and women enjoy an increased earning capacity Yet in parts of the developing world women's education is considered a low priority at best and a dangerous countercultural activity at worst In Europe and North America the number of women's colleges is shrinking yet women only institutions are growing in size and number in many other regions of the world where they provide access to female students who are prevented for legal cultural religious or practical reasons from attending coeducational universities Women's Colleges and Universities in a Global Context is the first book to provide a comprehensive comparative analysis of the increasing significance of single sex higher education institutions for women around the world Based on Kristen A Renn's on site study of thirteen women's colleges and universities in ten different countries Australia Canada China India Italy Japan Kenya South Korea the United Arab Emirates and the United Kingdom this timely and provocative volume combines interviews of campus leaders faculty and students with extensive online and archival research Renn provides an overview of each country's political economic and educational situation then explores the theoretical and practical themes she uncovers in their educational institutions for women In the end this volume addresses not only the role of women's colleges in their own countries but also what these institutions can teach us that would benefit higher education worldwide

Developing and Assessing Personal and Social Responsibility in College Robert D. Reason, 2013-12-05 In 2007 wanting to expand higher education's civic engagement conversation the Association of American Colleges and Universities launched the Core Commitments Initiative That initiative focused attention on personal and social responsibility as outcomes of a college education with the understanding that such a focus would return American higher education to its historical purpose of preparing active and engaged citizens Expanding the conversation this way leaves room for behavioral measures like voting or hours spent in community service but also opens our understanding of citizenship to include issues of civic identity civic attitudes personal integrity and ethics This volume explores the research and practice related to the development of personal and social responsibility in college drawing data directly from institutions that were part of the Core Commitments Initiative and providing instructive examples of good practice at both the programmatic and institutional levels This volume is the 164th volume of the Jossey Bass quarterly report series New Directions for Higher Education Addressed to presidents vice presidents deans and other higher education decision makers on all kinds of campuses it provides timely information and authoritative advice about major issues and administrative problems confronting every institution

Higher Education in the United States James J. F. Forest, Kevin Kinser, 2002-06-21 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity In the years following World War II college and university

enrollment doubled students revolted faculty unionized and community colleges evolved Tuition and technology soared as did the number of first generation minority and women students These changes radically transformed the American system of postsecondary education Today that system is in trouble Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them A flood of corporate dollars funds commercial research but money for basic research the seedbed of American scientific preeminence has dried up Colleges and universities also face heated competition with for profit education providers for students faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education Higher Education in the United States provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study discuss and grapple with on a daily basis **Current Index to Journals in Education**, 1999

Diversity and Education Benefits Serge Herzog, 2010-04-12 Campus climate studies and research on the impact of diversity in higher education abound On closer examination however the corpus of findings on the role of diversity and how diversity is captured with campus climate surveys reveals both conceptual and methodological limitations This volume of New Directions for Institutional Research addresses these limitations with the inclusion of studies by institutional research IR practitioners who make use of data that furnish new insights into the relationships among student diversity student perception of campus climate and student sociodemographic background and how those relationships affect academic outcomes Each chapter emphasizes how IR practitioners benefit from the conceptual and analytical approach laid out and each chapter provides a framework to gauge the contribution of diversity to educational benefits The findings revealed in this volume cast doubt on the benefits of student diversity purported in previous research At a minimum the influence of student diversity is neither linear nor unidirectional but operates within a complex web of interrelated factors that shape the student experience This is the 145th volume of New Directions for Institutional Research Always timely and comprehensive New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination information analysis program evaluation and institutional management

Dimensions of Managing Academic Affairs in the Community College Douglas Robillard, 2000-05-04 The contributors to this issue present a variety of strategies to help chief academic officers not only survive but excel while juggling their many and varied responsibilities They offer seasoned advice on fulfilling the CAO's academic duties and explore the CAO's faculty and administrative roles discussing how to balance the sometimes conflicting roles of faculty mentor advocate and disciplinarian and the importance of establishing a synergistic working relationship with the president They show how to resolve typical crises that arise in the course of the CAO's daily duties and demonstrate how conflict can actually be an opportunity to effect constructive change The issue also covers the important areas of resource and data management providing an introduction to resource management concepts and terminology and presenting a case study of an award

winning data driven decision making process This is the 109th issue of the Jossey Bass series New Directions for Community Colleges **The National Education Priorities of the President and the U.S. Department of Education, Striving for Excellence, Volume IV: 2000** ,2000 Striving for Excellence ,2000 **Understanding the Work Lives of Faculty of Color** Luis Ponjuan,2005 **Proceedings** ,1999 **Journal of College Student Development** ,2007 1999 International Symposium on Technology and Society IEEE Society on Social Implications of Technology,1999 The theme of the symposium is Women and Technology Historical Societal and Professional Perspectives The roles of women in technology are more diverse controversial and important today than ever before Since the 1950s women have tried to technologically empower themselves particularly by entering the engineering profession They have done so in great numbers although today it is glaringly obvious that women are still underrepresented in engineering Women in the field still face gender based obstacles expectations and biases despite decades of efforts to eradicate these problems These issues are addressed *New Directions for Institutional Research* ,2001 Measuring What Matters: Competency-Based Learning Models in Higher Education Richard Voorhees,2001-07-30 Intended as a toolkit for academic administrators faculty and researchers to deal effectively with the rapid emergence of competency based learning models across higher education this volume provides practical advice and proven techniques for implementing and evaluating these models Drawing from a recent National Postsecondary Education Cooperative project that examined data and policy implications across public and private institutions as well as an industrial setting readers will find an inventory of strong practices to utilize in evaluating competency based initiatives Issues discussed include practical concerns of measuring and reporting competency the critical connections between the skills employers seek and student preparation for them the connections between distance education accreditation and competencies and the difficult procedure of setting appropriate passing standards for assessments With a bibliography on competency literature and a framework for creating competency models this volume is an invaluable tool to researchers and practitioners alike This is the 110th issue of the Jossey Bass series New Directions for Institutional Research Bridging the Diversity Divide Edna Chun, Alvin Evans,2009-05-18 The sweeping forces of globalization present new challenges for higher education but also represent a clear mandate for change Because of the unfinished business of remedying the representation of minorities and women in higher education this book is designed to assist campus leaders and educators in the difficult process of cultural transformation in support of diversity and inclusion The book explores the model of reciprocal empowerment as a moral framework linking the institution's values culture and workplace practices to the outside world through the prism of diversity The focus is on research based strategies which will enable institutions of higher education to assess current practices create successful action plans and move beyond structural representation to true reciprocal empowerment The measurement strategies organizational learning tools and best practices included here will assist institutions of higher education in building a flexible repertoire of institutional approaches to reciprocal empowerment
