Camus A Oran:

The Plague Albert Camus, 1948 A coastal city in Algeria is struck by bubonic plague and shut off from the world for months *The Algerian Novel and Colonial Discourse* Abdelkader Aoudjit, 2010 During the last fifty years Mouloud Feraoun Mohammed Dib Mouloud Mammeri and Kateb Yacine achieved significant international recognition yet remain little known in the United States Filling a pressing need *The Algerian Novel and Colonial Discourse* provides a critical introduction and a new approach to the works of these Algerian novelists Beginning with an overview of their novels this book goes on to discuss critical approaches to them challenging the widely held notion that they are merely ethnographic upholding the status quo *The Algerian Novel and Colonial Discourse* provides a new reading and most significantly argues that they are best read as witnesses to the kind of conflict Jean Fran ois Lyotard calls a *diff rend* a conflict in which one suffers an injustice and is at the same time deprived of the means to argue *The Algerian Novel and Colonial Discourse* then examines the issue of humanism that the novels allegedly both appeal to and reject and demonstrates that the Algerian authors condemnation of colonialism is both a coherent political position and consistent with their critique of liberal humanism It concludes with a discussion on the ongoing relevance of the Algerian novels *The Algerian Novel and Colonial Discourse* includes a glossary and a short history of modern Algeria to provide readers with the political and cultural contexts they need to understand its literature This combination of innovative theoretical approach and political context makes this book of utmost importance for students of Francophone literature and for literary critics interested in colonialism postcolonialism and Lyotard s philosophy

Camus's The Plague Peg Brand Weiser, 2023 *La Peste* in English *The Plague* originally published in 1947 by the Nobel Prize winning writer Albert Camus chronicles the progression of deadly bubonic plague as it spreads through the quarantined Algerian city of Oran While most discussions of fictional examples within aesthetics are either historical or hypothetical Camus offers an example of pestilence fiction Camus chose fiction to convey facts about plagues in the past his own bout with tuberculosis at age seventeen living under quarantine away from home for several years and forced separation from his wife who remained in Algiers while he was abroad in Nazi occupied France His own lived experiences undergird an imaginative account of shared human realities with which we can identify vulnerability to the disease isolation fear and finally humanitarianism *The Plague* teaches us to neither covet nor expect what we so casually took for granted This collection of original essays on philosophical themes in *The Plague* is of special relevance during and in the aftermath of Covid 19 but also provides reflections that will be of lasting value to those interested in this classic work of literature The novel explores questions of enduring importance Do we collectively meet the threshold of ethical behaviour posed by Camus who wrote What s true of all the evils in the world is true of plague as well It helps men to rise above themselves Or does the absurd undermine the compassionate Do heroes dutifully fight a plague with common decency or does human nature resign itself to the normalization of uncontrollable suffering and death There are myriad ways to approach the novel and this volume

Doctoring the Empire Giuliana Lund, 1997 Boredom, Architecture, and Spatial Experience Christian Parreno, 2021-02-11 Boredom is a ubiquitous feature of modern life Endured by everyone it is both cause and effect of modernity and of situations spaces and surroundings As such this book argues boredom shares an intimate relationship with architecture one that has been seldom explored in architectural history and theory Boredom Architecture and Spatial Experience investigates that relationship showing how an understanding of boredom affords us a new way of looking at and understanding the modern experience It reconstructs a series of episodes in architectural history from the 19th century to the present to survey how boredom became a normalized component of the everyday how it infiltrated into the production and reception of architecture and how it serves to diagnose moments of crisis in the continuous transformations of the built environment Erudite and innovative the work moves deftly from architectural theory and philosophy to literature and psychology to make its case Combining archival material scholarly sources and illuminating excerpts from conversations with practitioners and thinkers including Charles Jencks Rem Koolhaas Sylvia Lavin and Jorge Silvetti it reveals the complexity and importance of boredom in architecture **Albert Camus's "The New Mediterranean Culture"** Neil Foxlee, 2010 This book was shortlisted for the R H Gapper prize 2011 On 8 February 1937 the 23 year old Albert Camus gave an inaugural lecture for a new Maison de la culture or community arts centre in Algiers Entitled La nouvelle culture m diterran enne The New Mediterranean Culture Camus s lecture has been interpreted in radically different ways while some critics have

dismissed it as an incoherent piece of juvenilia others see it as key to understanding his future development as a thinker whether as the first expression of his so called Mediterranean humanism or as an early indication of what is seen as his essentially colonial mentality These various interpretations are based on reading the text of *The New Mediterranean Culture* in a single context whether that of Camus's life and work as a whole of French discourses on the Mediterranean or of colonial Algeria and French discourses on that country By contrast this study argues that Camus's lecture and in principle any historical text needs to be seen in a multiplicity of contexts discursive and otherwise if readers are to understand properly what its author was doing in writing it Using Camus's lecture as a case study the book provides a detailed theoretical and practical justification of this multi contextualist approach

The Image of Algeria in Anglo-American Writings, 1785-1962 Osman Bencherif, 1997-10-16 This book explores the way in which British and American visitors experienced Algeria and about their imaginary responses to the country It also attempts to trace the elaboration and evolution of the perception of Algeria in the West with particular focus on the impressions and representations of those Anglo Americans who experienced Algeria at first hand and wrote about it The book provides historical perspective from the 16th century to the turn of the 19th century but more specifically from 1785 which opened the chapter of the young American Republic clashes with the Regency of Algiers to the last years of the Algerian War of Independence in 1962 It provides for the first time a corpus of literary texts that offer a basic anthology of Anglo American writings on Algeria In that sense some valuable documents that had fallen into oblivion have been retrieved throwing some illuminating light on the common and often forgotten cultural connections between Algeria and the Anglo American world over four centuries

A Writer's Topography Jason Herbeck,Vincent Grégoire,2015-08-25 A Writer s Topography examines French Algerian Nobel Prize laureate Albert Camus s intimate yet often unsettled relationship with natural and human landscapes Much like the Greek hero Sisyphus about whom he wrote his famous philosophical essay Camus sustained a deep awareness of and appreciation for what he termed le visage de ce monde the face of this earth This wide ranging collection of essays by Camus scholars from around the world demonstrates to what extent topography is omnipresent in Camus s life and works Configurations and contemplations of landscape figure prominently in his fictional works on both a literal and figurative level from the earliest writings of his youth to his final unfinished novel Le Premier Homme Furthermore as a core component of the way in which Camus perceived conceived and expressed the human condition topography constitutes an over arching and particularly profound dimension of his personal public and philosophical thought
