Primo Levi and the Politics of Survival Frederic D. Homer, 2001 At the age of twenty five Primo Levi was sent to Hell Levi an Italian chemist from Turin was one of many swept up in the Holocaust of World War II and sent to die in the German concentration camp in Auschwitz Of the 650 people transported to the camp in his group only 15 men and 9 women survived After Soviet liberation of the camp in 1945 Levi wrote books essays short stories poetry and a novel in which he

painstakingly described the horrors of his experience at Auschwitz He also spent the rest of his life struggling with the fact that he was not among those who were killed In *Primo Levi and the Politics of Survival* Frederic D Homer looks at Primo Levi's life but more important shows him to be a significant political philosopher In the course of his writings Levi asked and answered his most haunting question can someone be brutalized by a terrifying experience and upon return to ordinary life recover from the physical and moral destruction he has suffered Levi used this question to develop a philosophy positing that although man is no match for life he can become better prepared to contend with the tragedies in life According to Levi the horrors of the world occur because of the strength of human tendencies which make relationships between human beings exceedingly fragile He believed that we are ill constituted beings who have tendencies toward violence and domination dividing ourselves into Us and Them with very shallow loyalties He also maintained that our only refuge is in education and responsibility which may counter these tendencies Homer calls Levi's philosophy optimistic pessimism As Homer demonstrates Levi took his past experiences into account to determine that goodwill and democratic institutions do not come easily to people Liberal society is to be earned through discipline and responsibility toward our weaknesses Levi's answer is civilized liberalism To achieve this we must counter some of our most stubborn tendencies Homer also explores the impact of Levi's death an apparent suicide on the way in which his work and theories have been perceived While several critics discount Levi's work because of the nature of his death Homer argues that his death is consistent with his philosophy A book rich in brutally honest philosophy *Primo Levi and the Politics of Survival* compels one to look at serious questions about life tragedy optimism solidarity violence and human nature From Columbus to ConAgra Alessandro Bonanno,1994 This examination of the role of agriculture and food in the new international division of labor argues that the globalized economy creates new winners and losers **Developing the Third World** Robert A.
