Human Rights in Canadian Foreign Policy R. Matthews, 1988-10-01 The pattern revealed is one of deliberate ambiguity On some issues and in some forums Canada has acted vigorously to promote human rights internationally as in the United Nations Human Rights Commission the United Nations Committee on Human Rights and the Conference on Security and Cooperation in Europe Canada has been much less forceful about human rights in dealings with the International Labour Organization and has almost completely ignored this issue as it relates to international financial institutions Canada has been outspoken about the violation of rights in countries ruled by communist regimes while hesitation and ambiguity are a feature of Canadian policies toward South Africa and Central America as well as in lending policies to international financial institutions Canadian development assistance and Canadian arms sales Each of these areas is examined in Human Rights in Canadian Foreign Policy Canada is most vigorous on issues of human rights when the rights in question are civil and political rather than economic and social and when the offending regime is under Soviet rather than American influence The contributors include Frances Arbour Victoria Berry John W Foster Rhoda E Howard Kalmen Kaplansky T A Keenleyside Allen McChesney Ronald Manzer Robert O Matthews Stefania Szlek Miller Cathal J Nolan Kim Richard Nossal Cranford Pratt Renate Pratt Ernie Regehr and H Gordon Skilling *Review of Historical Publications Relating to Canada* George McKinnon Wrong, Hugh Hornby Langton, William Stewart Wallace, 1908 The 1st volume 1896 includes important publications of 1895

Canada's Foreign Policy and the Arab-Israel Conflict Kamaran M.K. Mondal, 2022-01-10 Using the historical and comparative approaches of study this book traces the roots of the Arab Israel conflict in general and the Palestine Israel conflict in particular as well as Canada's role in the thorny issue of the conflict and peace processes through multilateral fora and institutions It shows that the Canadian perception and policy while uniquely Canadian have operated within the broader Anglo American framework of support for a Jewish homeland and the two state theory The book argues that three significant factors have impacted Canada's outlook and actions Firstly Canada's perception and policy towards the Arab Israel conflict have been shaped by religio cultural and historical factors rather than by its acclaimed Liberal Internationalism Second growing economic and commercial interests after the 1973 Arab Israel War and its perceived national interest made it adopt a more nuanced and balanced approach towards the conflict Finally it argues that the elite perception the initiatives by Lester Pearson and the presence of an active Jewish community have had a significant influence on Canadian perception towards the Arab Israel conflict Canada's Cities in a Changing World 1920-2120 Daniel Hoornweg, 2025-09-30 This book

provides a deeper understanding of cities and how they underpin Canada's culture and prospects Where are Canada's cities best in class Where do they need urgent care Why is the most important determinant of a rural Albertan or northern Ontario resident the success of the country's cities How are Canada's cities inextricably anchored to the expansive open spaces of the countryside Through a sweeping 200 year timeframe key trends and influences emerge Many of these are common around the world yet much is also unique to Canada's geography A deeper understanding of the history of Canada's cities where cities are today relative to their international peers and what is likely to transpire over the next century will lead to better policy decisions The time frame is also consistent with the Haudenosaunee Iroquois philosophy that decisions should support a sustainable world seven generations into the future about 200 years This is the halftime report of Seven Generations of Canada's cities

Canadian Florist, 1926 International Affairs and Canadian Migration Policy Yiagadeesen Samy, Howard Duncan, 2020-08-26 This volume examines Canada's migration policy as part of its foreign policy It is well known that Canada is a nation of immigrants However immigration policy has largely been regarded as domestic rather than foreign policy with most scholarly and policy work focused on what happens after immigrants have arrived in this country As a result the effects of immigration to Canada on foreign affairs have been largely neglected despite the international character of immigration The contributors to this volume underline the extent to which Canada's relationships with individual countries and with the international community is closely affected by its immigration policies and practices and draw attention to some of these areas in the hope that it will encourage more scholarly and policy activity directed to the impact of immigration on foreign affairs Written by both academics and policy makers the book analyzes some of the latest thinking and initiatives related to linkages between migration and foreign policy
