Canada ,2003      **The Canadian Experience of the Great War** Brian Douglas Tennyson,2013-05-01 Although the United States did not enter the First World War until April 1917 Canada enlisted the moment Great Britain engaged in the conflict in August 1914 The Canadian contribution was great as more than 600 000 men and women served in the war effort 400 000 of them overseas out of a population of 8 million More than 150 000 were wounded and nearly 67 000 gave their lives The war was a pivotal turning point in the history of the modern world and its mindless slaughter shattered a generation and destroyed seemingly secure values The literature that the First World War generated and continues to generate so many years later is enormous and addresses a multitude of cultural and social matters in the history of Canada and the war itself Although many scholars have brilliantly analyzed the literature of the war little has been done to catalog the writings of ordinary participants men and women who served in the war and wrote about it but are not included among well known poets novelists and memoirists Indeed we don t even know how many titles these people published nor do we know how many more titles were added later by relatives who considered the recollections or collected letters worthy of publication Brian Douglas Tennyson s *The Canadian Experience of the Great War A Guide to Memoirs* is the first attempt to identify all of the published accounts of First World War experiences by Canadian veterans      **Women in Dialogue** Dilek Direnç,Günseli Sönmez İşçi,2009-03-26 *Women in Dialogue M Uses of Culture* results from an international symposium held at Ege University Izmir Turkey in 2006 which brought together scholars from over ten countries and from multiple academic backgrounds who share professional interest in women s studies and to no less degree in current women s realities The book presents a collection of essays united by a common focus on the position of women as objects of cultural production in different geographic national and political contexts as well as the character and typology of women s contribution to cultural activity across the ethnic or religious divide marking the face of contemporary world The volume comprises two sections the first titled *Women in Dialogue* contains contributions which analyze literary representations of women from a variety of perspectives and from diverse spatial and temporal locations The second part titled *M Uses of Culture* includes personalized observations by several women writers of both poetry and fiction their commentaries on their own work as artists and their deeply experienced musings on the position of women as artists in the world of today The essays that this volume brings together are varied in subject matter yet they are connected by the common theme epitomized in the metaphor of dialogue as a platform for active productive communication leading on the pages of the book if not elsewhere to learning and mutual understanding      Canada Charlotte Gray,2003 In *Canada A Portrait in Letters* renowned biographer and popular historian Charlotte Gray weaves together more than two hundred letters written by Canadians both famous and ordinary These priceless documents are accompanied by a visual narrative of one hundred illustrations including maps sketches and photographs Adding her own notes and commentary Gray creates a captivating portrait of a country rich in diversity and
