Annual Report on Labour Organization in Canada ,1926 *Neoliberalism and National Culture* Cory Blad, 2011-09-20 Neoliberal globalization is understood to have a corrosive effect on the state Reductions in economic

regulatory capacities combined with an ideological attack on the public necessity of social spending has left many with the impression that the state is a weakened institution at best This book argues that despite popular claims to the contrary global capitalism requires state institutional authority but the legitimation of this authority is increasingly tied to cultural rather than economic means Canada and Qu bec are presented in historical comparative context as examples of how neoliberal states achieve global political economic integration while relying on cultural legitimation to maintain social policies working to mitigate social changes resulting from increased global integration Labour Organization in Canada ,1926 **The Nation** ,1882 *Australia and the League of Nations* Alexander Donaldson Ellis,1922 The Canadian Monthly and National Review ,1874
