inhabited by French Acadians and native peoples and only after 1770 did it begin to attract Scots settlers mainly but not exclusively from the Scottish Highlands The Glenaladale settlers in Prince Edward Island and the valiant band of Highlanders in the Hector 1773 proved to be harbingers of the greatest mass immigration the region would ever see More numerous than the New England planters and Loyalists who preceded them and outnumbering the contemporary Irish immigration the Scots put their stamp on Cape Breton Island the eastern mainland of Nova Scotia much of Prince Edward Island and coastal regions of New Brunswick from Restigouche in the north to the shores of the Bay of Fundy to the south While they left behind a scattered body of records it is important to remember that there were two main streams of immigration to the Maritimes one commencing in the Scottish Highlands the other in the New England colonies during the period of the Revolutionary War Fragmentary and scattered though these records are this book attempts to put names and places to a few thousand of these immigrants in the hope that some readers may find an ancestor or a kinsman
