Blake Brown,2012-10-23 From the Cole Polytechnique shootings of 1989 to the political controversy surrounding the elimination of the federal long gun registry the issue of gun control has been a subject of fierce debate in

Canada But in fact firearm regulation has been a sharply contested issue in the country since Confederation Arming and Disarming offers the first comprehensive history of gun control in Canada from the colonial period to the present In this sweeping immersive book R Blake Brown outlines efforts to regulate the use of guns by young people punish the misuse of arms impose licensing regimes and create firearm registries Brown also challenges many popular assumptions about Canadian history suggesting that gun ownership was far from universal during much of the colonial period and that many nineteenth century lawyers including John A Macdonald believed in a limited right to bear arms Arming and Disarming provides a careful exploration of how social economic cultural legal and constitutional concerns shaped gun legislation and its implementation as well as how these factors defined Canada's historical and contemporary gun culture *Lethal Violence* Homicide Research Working Group. Kent Weaver,2003-04-01 Democratic government is about making choices Sometimes those choices involve the distribution of benefits At other times they involve the imposition of some type of loss a program cut increased taxes or new regulatory standards Citizens will resist such impositions if they can or will try to punish governments at election time The dynamics of loss imposition are therefore a universal if unpleasant element of democratic governance The Government Taketh Away examines the repercussions of unpopular government decisions in Canada and the United States the two great democratic nations of North America Pal Weaver and their contributors compare the capacities of the U S presidential system and the Canadian Westminster system to impose different types of losses symbolic losses gun control and abortion geographically concentrated losses military base closings and nuclear waste disposal geographically dispersed losses cuts to pensions and to health care and losses imposed on business telecommunications deregulation and tobacco control Theory holds that Westminster style systems should all things being equal have a comparative advantage in loss imposition because they concentrate power and authority though this can make it easier to pin blame on politicians too The empirical findings of the cases in this book paint a more complex picture Westminster systems do appear to have some robust abilities to impose losses and US institutions provide more opportunities for loss avoiders to resist government policy in some sectors But in most sectors outcomes in the two countries are strikingly similar The Government Taketh Away is essential for the scholar and students of public policy or comparative policy It is also an important book for the average citizen who wants to know more about the complexities of living in a democratic society where the government can give but how it can also sometimes painfully taketh away *Estimates* Royal Canadian Mounted Police,2010 **Canadian Criminal Cases Annotated** ,1923
