**IBSS: Political Science: 2007 Vol. 56** The British Library of Political and Economic Science, 2009-01-08 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French      The Political Economy of Democracy and Tyranny Norman Schofield, 2009 One theme that has emerged from the recent literature on political economy concerns the transition to democracy why would dominant elites give up oligarchic power This book addresses the fundamental question of democratic stability and the collapse of tyranny by considering a formal model of democracy and tyranny The formal model is used to study elections in developed polities such as the United States the United Kingdom the Netherlands Canada and Israel as well as complex developing polities such as Turkey The key idea is that activist groups may offer resources to political candidates if they in turn adjust their polities in favor of the interest group In polities that use a first past the post electoral system such as the US the bargaining between interest groups and candidates creates a tendency for activist groups to coalesce in polities such as Israel and the Netherlands where the electoral system is very proportional there may be little tendency for activist coalescence A further feature of the model is that candidates or political leaders like Barack Obama with high intrinsic charisma or valence will be attracted to the electoral center while less charismatic leaders will move to the electoral periphery This aspect of the model is used to compare the position taking and exercise of power of authoritarian leaders in Portugal Argentina and the Soviet Union The final chapter of the book suggests that the chaos that may be induced by climate change and rapid population growth can only be addressed by concerted action directed by a charismatic leader of the Atlantic democracies      **Rapport Du Directeur Général Des Élections Sur Les Élections Partielles Fédérales Et Les Élections Partielles Au Conseil Des Territoires Du Nord-Ouest Tenues en ...** , 2004 Reports include those of the general elections by elections and Northwest and Yukon Territories elections      **Gender**
