Canadian Naval Chronicle 1939-1945:

The Canadian Naval Chronicle, 1939-1945 Robert A. Darlington, Fraser McKee, 1998 In World War II the Canadian Navy embarked on a five year anti submarine offensive with a tiny fleet of six destroyers and a navy largely untrained in submarine warfare This chronicle of ship successes and losses charts the increase in fighting capability of the Canadian naval forces and their growing success against enemy submarines and surface warships From the dreadful loss of sixteen ships out of a single convoy in 1941 to the painstaking teamwork of hunting down and destroying an asdic contact a few years later the authors have managed to capture the drama of these events in considerable detail The information provided in each account represents comprehensive research into the incident from available records and from personal recollections and interviews collected by the authors Each includes the ships and crews involved on both sides their movements just prior to the event the action itself the casualty lists and the medals awarded as a result of the action This book also contains for the first time a complete record of all the Canadian owned Merchant ships lost as well as a table of RCAF Squadron successes against enemy U boats

time and again put themselves in danger as they performed the critical task of moving supplies military and civilian which were vital to ultimate victory We read of numerous instances of sailors having their ships shot out from under them and then continuously going back to sea and having additional ships torpedoed and sunk We can also recognize what we know today as Post Traumatic Stress Disorder PTSD which was seldom recognized 75 years ago *The Mariner's Mirror Bibliography for ...*,1997 **Age Shall Not Weary Them** Bill Barry,William R. Barry,Doug Chisholm,Beth Parsons,2005 **The Necessary War, Volume 1** Tim Cook,2014-09-09 Co winner of the 2014 2015 Charles P Stacey Award Tim Cook Canada's leading war historian ventures deep into World War Two in this epic two volume story of heroism and horror of loss and longing sacrifice and endurance Written in Cook's compelling narrative style this book shows in impressive detail how soldiers airmen and sailors fought the evolving tactics weapons of war logistics and technology It gauges Canadian effectiveness against the skilled enemy whom they confronted in battlefields from 1939 to 1943 from the sweltering heat of Sicily to the frigid North Atlantic and from the urban warfare of Ortona to the dark skies over Germany The Necessary War examines the equally important factors of morale discipline and fortitude of the Canadian citizen soldiers The war was an engine of transformation for Canada With a population of fewer than twelve million Canada embraced its role as an arsenal of democracy exporting war supplies feeding its allies and raising a million strong armed forces that served and fought in nearly every theatre of war The nation was mobilized like never before in the fight to preserve the liberal democratic order The six year long exertion caused disruption provoked nationwide industrialization ushered in changes to gender roles exacerbated the tension between English and French and forged a new sense of Canadian identity Canadians were willing to bear almost any burden and to pay the ultimate price in the pursuit of victory As with his award winning two volume series on WWI Tim Cook uses original sources letters from soldiers rare documents and maps of battlefields to illustrate the contributions and sacrifices made by what is often called the greatest generation Magisterial in its scope The Necessary War illuminates Canada's past as never before From the Western Front to the home front Canadians served many roles in a war that had to be fought and won **America, History and Life**,2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Marine News**,1997 **U-Boat Attack Logs** Daniel Morgan,Bruce Taylor,2011-11-09 During the Second World War over 250 Allied warships from a dozen navies were sent to the bottom by German U boats This ground breaking study provides a detailed analysis of every sinking for which source material survives from both the Allied and the German sides resulting in detailed treatment of the fate of 110 vessels with the remainder summarised in an extensive appendix Uniquely each entry is built around a specialist translation of the relevant segment of the war diary log of the U boat in question taken directly from the surviving originals remarkably this represents the first large scale publication of the U boat war diaries in any language The book offers a wealth of new information not only with respect to the circumstances of the sinkings from both the Allied and German perspectives but also to the technical

environment in which they lived as well as the fate of the crews. The entries include background details on the vessels concerned and the men involved with a selection of rare and carefully chosen photos from archives and collections around the world. Each entry is itself a compelling narrative but is backed with a list of sources consulted including documents published works and websites. A decade in the making this is probably the most important book on the U boat war to be published for many a year.

Hampshire at War, 1939-45 Murray Rowlands, 2018-03-30. Hampshire at War 1939-45 looks at the pivotal role Hampshire played during the Second World War including principal details of the genesis for D Day and how the Battle for Britain happened on a day by day basis. The author highlights the people's experience of total war from the blitz in Portsmouth Gosport and Southampton along with raids throughout the county not to mention the role played by the Royal Navy at sea and in the dockyards. As well as saluting the role of civilians who created and built Spitfires and Hurricanes the book places a rightful spotlight on the role Hampshire's women played in the final victory. Hampshire's major effort towards final victory arose from the towns and hamlets of the county. Training for the secret war and espionage took place in Beaulieu and the training for the Cockleshell Heroes took place around Southsea. Hampshire's war involved the arrival of men and women from all over the world but in particular from Canada and America with important cultural changes for everyone living there. When invasion threatened in 1940 a defence of Britain had to be organised and Hampshire's coast was particularly vulnerable. Details of how German troops would be resisted after landings in the Solent and along Hampshire's coast are also explored. Hampshire at War 1939-1945 traces the progress of evacuating its children from vulnerable cities such as Southampton and Portsmouth and records the experiences of the children themselves. But most importantly Murray Rowlands provides the experience of living through the Second World War as it happened.
