Canadian State Trials:

Canadian State Trials, Volume II F. Murray Greenwood, Barry Wright, 2002-12-15 This second volume of the Canadian State Trials series focuses on the largest state security crisis in 19th century Canada the rebellions of 1837 1838 and associated patriot invasions in Upper and Lower Canada Ontario and Quebec Historians have long debated the causes and implications of the rebellions but until now have done remarkably little work on the legal aspects of the insurrections and their aftermath Given that over 350 men were tried for treason or equivalent offences in connection with the rebellions this volume is long overdue The essays collected here written by prominent Canadian historians legal scholars and archivists break new ground in the existing historiography of the rebellions by presenting the first comprehensive examination of the legal dimensions of the crises In addition to examining trials and court martial proceedings the essays examine their political social and comparative contexts including the passage of emergency legislation and executive supervision of legal responses the treatment of women and the plight of political convicts transported to the Australian penal colonies Canadian State Trials Volume Two contributes significantly to the ongoing reassessment of the rebellion period *Canadian State Trials:*

Rebellion and invasion in the Canadas, 1837-1839 Osgoode Society for Canadian Legal History, 1996-01-01 And incompetent justice Legal responses to the 1885 Crisis North West Rebellions Bob Beal and B Wright Another look at the Riel Trial for Treason Louis Riel J M Bumstead The White Man governs The 1885 Indian trials Indians First Nation Aboriginal or Native peoples Bill Waiser Securing the dominion High handed impolite and empire breaking actions radicalism anti imperialism and political policing in Canada 1860 1914 Andrew Parnaby Gregory S Kealey with Kirk Niergarth Codification public order and the security provisions of the Canadian Criminal Code 1892 Desmond H Brown B Wright Appendices Sir John A Macdonald Fonds Archival Sources in Canada for Riel s Rebellion **Canadian State Trials, Volume IV** Barry Wright, Eric Tucker, Susan Binnie, 2015-11-26 The fourth volume in the Canadian State Trials series examines the legal issues surrounding perceived security threats and the repression of dissent from the outset of World War One through the Great Depression War prompted the development of new government powers and raised questions about citizenship and Canadian identity while the ensuing interwar years brought serious economic challenges and unprecedented tensions between labour and capital The chapters in this edited collection written by leading scholars in numerous fields examine the treatment of enemy aliens conscription and courts martial sedition prosecutions during the war and after the Winnipeg General Strike and the application of Criminal Code and Immigration Act laws to Communist Party leaders On to Ottawa Trekkers and minority groups These historical events shed light on contemporary dilemmas What are the limits of dissent in war emergencies and economic crisis What limits should be placed on government responses to real and perceived challenges to its authority

Canadian State Trials, Volume I Frank Murray Greenwood, Barry Wright, 1996-12-15 State trials reveal much about a nation s insecurities and shed light on important themes in political constitutional and legal history In Canada perceived and

real threats to the state have ranged from dissent disaffection and the emergence of threatening ideologies to insurrection riot violent protest and military invasion The Canadian State Trials series will explore the role of the law in regulating such threats from the period of early European settlement to 1971 The first volume and the planned series as a whole present a great deal of new material by prominent Canadian historians and legal scholars Although certain Canadian political trials and security crises have received scholarly attention in the past there has never been a comprehensive and systematic examination of the country's surprisingly rich record in this area The eighteen essays in Volume I examine this record for the period 1608 1837 covering proceedings in New France the four Atlantic colonies the Old Province of Quebec and the two Canadas They highlight security law during the American revolution the wars against revolutionary Napoleonic France and the War of 1812 comparative treason law and the trials of David McLane Robert Gourlay Francis Collins and Joseph Howe among others The essays which extensive use of primary sources the most illuminating of which appear in a documentary appendix place the examination of the law and its administration during these events in socio political and comparative context

Canadian State Trials, Volume V Barry Wright, Susan Binnie, Eric Tucker, 2022-11-01 The fifth and final volume of the Canadian State Trials series examines political trials and national security measures during the period of 1939 to 1990 Essays by historians and legal scholars shed light on experiences during the Second World War and its immediate aftermath including uses of the War Measures Act and the Official Secrets Act with the unfolding of the Cold War and legal responses to the FLQ including the October Crisis labour strikes and Indigenous resistance and standoffs The volume critically examines the historical and social context of the trials and measures resulting from these events concluding the first comprehensive series on this important area of Canadian law and politics The fifth volume's exploration of state responses to real and perceived security threats is particularly timely as Canada faces new challenges to the established order ranging from Indigenous nations demanding a new constitutional framework to protestors challenging discriminatory policing and contesting public health measures Osgoode Society for Canadian Legal History

Canadian State Trials, Volume III Barry Wright, Susan Binnie, 2020-04-22 The third volume in the Canadian State Trials series examines Canadian legal responses to real or perceived threats to the safety and security of the state from 1840 to 1914 a period of extensive challenges associated with fundamental political and socio economic change Trials for treason and related political offences suspensions of habeas corpus and other public order and security related measures supported by new institutions such as secret policing are studied in essays by leading scholars in the field The book is divided into four parts trials and related proceedings arising from the Fenian invasions attempts to regulate large scale manifestations of public disorder trials following the North West Rebellions of 1870 and 1885 including the Riel trial and the modernization and enforcement of Canada's national security laws Building upon the established scholarship of the series the essays place these legal responses in context shedding light on the complex and changing relationship between law and politics in Canadian history

Davis, Emma Macleod, Gordon Pentland, 2018-12-30 This collection provides new insights into the Age of Revolutions focussing on state trials for treason and sedition and expands the sophisticated discussion that has marked the historiography of that period by examining political trials in Britain and the north Atlantic world from the 1790s and into the nineteenth century In the current turbulent period when Western governments are once again grappling with how to balance security and civil liberty against the threat of inflammatory ideas and actions during a period of international political and religious tension it is timely to re examine the motives dilemmas thinking and actions of governments facing similar problems during the Age of Revolutions The volume begins with a number of essays exploring the cases tried in England and Scotland in 1793 94 and examining those political trials from fresh angles including their

implications for legal developments their representation in the press and the emotion and the performances they generated in court Subsequent sections widen the scope of the collection both chronologically through the period up to the Reform Act of 1832 and extending as far as the end of the nineteenth century and geographically to Revolutionary France republican Ireland the United States and Canada These comparative and longue dur e approaches will stimulate new debate on the political trials of Georgian Britain and of the north Atlantic world more generally as well as a reassessment of their significance This book deliberately incorporates essays by scholars working within and across a number of different disciplines including Law Literary Studies and Political Science **American State Trials** John Davison Lawson,1917
