Canadian Women in Print, 1750-1918 Carole Gerson, 2010-06-25 Canadian Women in Print 1750 1918 is the first historical examination of women's engagement with multiple aspects of print over some two hundred years from the settlers who wrote diaries and letters to the New Women who argued for ballots and equal rights Considering women's published writing as an intervention in the public sphere of national and material print culture this book uses approaches from book history to address the working and living conditions of women who wrote in many genres and for many reasons This study situates English Canadian authors within an extensive framework that includes francophone writers as well as women's work as compositors bookbinders and interveners in public access to print Literary authorship is shown to be one point on a spectrum that ranges from missionary writing temperance advocacy and educational texts to journalism and travel accounts by New Woman adventurers Familiar figures such as Susanna Moodie L M Montgomery Nellie McClung Pauline Johnson and Sara Jeannette Duncan are contextualized by writers whose names are less well known such as Madge Macbeth and Agnes Laut and by many others whose writings and biographies have vanished into the recesses of history Readers will learn of the surprising range of writing and publishing performed by early Canadian women under various ideological biographical and cultural motivations and circumstances Some expressed reluctance while others eagerly sought literary careers Together they did much more to shape Canada's cultural history than has heretofore been recognized Dictionary Of British And Irish Botanists And Horticulturalists Including plant collectors, flower painters and garden designers Ray

Desmond, 2020-12-23 Over the past four centuries botanists and gardeners in the British Isles have gathered maintained and propagated many varying species of plants Their work has been documented in innumerable books and articles which are often difficult to trace The Dictionary of British and Irish Botanists and Horticulturalists represents a time saving reference source for those who wish to discover more about the lives and achievements of the horticulturalists listed The dictionary's utility comes not only from indicating the major publications of the named authors but also the location of their herbaria and manuscripts The previous 1977 edition of the Dictionary has for many years been a much used source of information for botanists botanic artists and archivists In this revised edition the scope has been expanded to include among its 13 000 entries flower painters in addition to botanical artists over 1400 entries and for the first time garden designers Finally the Dictionary should have international appeal since so many botanists and gardeners worked on collective plants overseas in particular in North America and the British Commonwealth Each entry gives wherever possible details of dates and places of birth and death educational qualifications professional posts honours and awards publications location of plant collections manuscripts drawings and portraits Its main function however is to provide further biographical references to books and periodicals Comprehensive classified indices facilitate access by professions and activities countries and plant interests
