L. Atkinson,1987 Man has won copper from the earth for about 10 000 years As pure metal it could be hammered into weapons or tools and the accidental discovery of smelting and alloying led to harder and more durable materials such as bronze and brass Copper is found in almost two hundred minerals many of them beautifully coloured and highly prized by collectors Today copper is mined all over the world in underground mines and vast open pits It is a very versatile metal it resists corrosion is malleable and ductile and is an excellent conductor of heat and electricity In the British Isles copper has been mined since pre Roman times Two areas dominated copper production during the eighteenth and nineteenth centuries Devon and Cornwall in south west England and Parys Mountain in Anglesey were the greatest copper producers in the world The spectacular ruins and the scars can still be seen *Quarries and Quarrying* Peter Stanier,2009-10-20 Whether they are still operational or long abandoned quarries are often dismissed as eyesores Despite this they can be fascinating to visit and provide an interesting link to a once powerful and necessary industry Although the Romans worked quarries it was not until the middle ages that the industry became established on a large scale It then achieved its height during the nineteenth century in response to industrialization and the associated demand for stone The book deals with the extraction methods of various types of stone and the rise and slow decline of quarrying across the UK While telling the history of quarrying it also covers some of the most famous and notable quarrying sites *Thimbles* Eleanor Johnson,1982 *Motoring Costume* Andrew Lane,1987 The British Library General Catalogue of Printed Books 1976 to 1982 British Library,1983 Charcoal and Charcoal Burning D.W.
