Camden Miscellany Xxxii Camden Fifth Series Volume 3:

Concepts and Patterns of Service in the Later Middle Ages Anne Curry, Elizabeth Matthew, 2000 The notion of service was ingrained in medieval culture and not just as part of the wider concept of patronage These studies examine the nature and importance of service in the 14th and 15th centuries in a variety of contexts Bagehot: The English Constitution Walter Bagehot, 2001-03-15 Walter Bagehot's anatomy of The English Constitution is a classic of English political writing In this new Cambridge Texts edition it appears for the first time in its original 1867 book version with Bagehot's original conclusion and the substantial introduction written for the second edition of 1872 Paul Smith's introduction places Bagehot's views in the context of contemporary events and prevalent views of the working of the constitution indicating their relation to his developing ideas on the anthropological and sociological springs of authority He assesses the accuracy of Bagehot's account of parliamentary government in operation and the strength of Bagehot's analysis of the difficulties faced by British liberalism in coming to terms with the approach of democracy All the usual student friendly features of the Cambridge Texts series are present including a select bibliography and brief biographies of key figures and annotation which explains some of Bagehot's more arcane contemporary allusions **Public Speech and the Culture of Public Life in the Age of Gladstone** Joseph S. Meisel, 2001 American Historical Review **Hundred Years War Vol 3** Jonathan Sumption, 2011-06-02 Divided Houses is a tale of contrasting fortunes In the last decade of his reign Edward III a senile pathetic symbol of England's past conquests was condemned to see them overrun by the armies of his enemies When he died in 1377 he was succeeded by a vulnerable child who was destined to grow into a neurotic and unstable adult presiding over a divided nation Meanwhile France entered upon one of the most glittering periods of her medieval history years of power and ceremony astonishing artistic creativity and famous warriors making their reputations as far afield as Naples Hungary and North Africa Contemporaries in both countries believed that they were living through memorable times times of great wickedness and great achievement of collective mediocrity but intense personal heroism of extremes of wealth and poverty fortune and failure At a distance of six centuries as Jonathan Sumption skilfully and meticulously shows it is possible to agree with all of these judgments *Britain, Spain and the Treaty of Utrecht 1713-2013* Trevor J. Dadson, 2017-12-02 In July 1713 Great Britain and Spain signed a Treaty of Peace and Friendship that brought to an end a conflict that had begun in 1701 following the death the year before of the Spanish King Charles II who died without leaving a direct descendant or heir The War of the Spanish Succession that ensued involved the major European powers who all had an interest in the question of who would occupy the Spanish throne As a result of the various peace treaties that were signed between 1713 and 1714 between the warring countries Spain Britain France the Austrian Empire the Dutch Republic the Bourbon candidate became king of Spain as Philip V but Spain lost its last European possessions the Spanish Netherlands Naples Sicily and Sardinia among others and ceded to Great Britain the island of Minorca and Gibraltar Considered by many

historians to be the first real world war as it involved fighting in the Americas as well as in Europe the War of the Spanish Succession changed the map of Europe and led to significant alterations in the balance of power In this volume twelve eminent historians and legal experts from Spain and the United Kingdom consider the political and legal context and consequences of the War and the Treaty of Utrecht that brought it to an end consequences that still resonate today This volume is edited by Trevor J Dadson with the assistance of the Office for Cultural and Scientific Affairs Embassy of Spain London

Historians on Chaucer Alastair Minnis, 2014-12-04 As literary scholars have long insisted an interdisciplinary approach is vital if modern readers are to make sense of works of medieval literature In particular rather than reading the works of medieval authors as addressing us across the centuries about some timeless or ahistorical human condition critics from a wide range of theoretical approaches have in recent years shown how the work of poets such as Chaucer constituted engagements with the power relations and social inequalities of their time Yet perhaps surprisingly medieval historians have played little part in this historical turn in the study of medieval literature The aim of this volume is to allow historians who are experts in the fields of economic social political religious and intellectual history the chance to interpret one of the most famous works of Middle English literature Geoffrey Chaucer's General Prologue to the Canterbury Tales in its contemporary context Rather than resorting to traditional historical attempts to see Chaucer's descriptions of the Canterbury pilgrims as immediate reflections of historical reality or as portraits of real life people whom Chaucer knew the contributors to this volume have sought to show what interpretive frameworks were available to Chaucer in order to make sense of reality and how he adapted his literary and ideological inheritance so as to engage with the controversies and conflicts of his own day Beginning with a survey of recent debates about the social meaning of Chaucer's work the volume then discusses each of the Canterbury pilgrims in turn *Historians on Chaucer* should be of interest to all scholars and students of medieval culture whether they are specialists in literature or history

Public Speech and the Culture of Public Life in the Age of Gladstone Joseph Meisel, 1999

The Fighting Essex Soldier Christopher Thornton, Jennifer Ward, Neil Wiffen, 2017-06-01

The wars of the fourteenth century English kings with France and Scotland resulted in a dramatic increase in the number of men involved in warfare on land and sea This book draws upon new research to identify and analyze these soldiers at all social levels in the specific context of the county of Essex New approaches to the history of the later Middle Ages allow important evidence of military service to be correlated with the rich documentary material stemming from landholding taxation administration and other aspects of economic and social life Significant comparisons can then be made increased demands for taxation and for shipping from maritime communities for example cast light on the impact of war upon the Home Front The uprising of 1381 is considered as the consequence of the intensive militarization of the south and southeast coast of England and the consequent cost to taxpayers In a series of related chapters which add up to a wide reaching survey leading researchers explore key aspects of military social and economic history in fourteenth century Essex From the raising

of forces to serve the king through a study of aristocratic lawlessness which may have been linked to violent experiences on the battlefield to new ways of analysing data to give insights into men recruited as archers and mariners and a consideration of military aspects of the Peasants Revolt this is a rewarding examination of medieval fighting men which affords much new insight into Essex history **Catalogue of the reference department** Hereford city, publ. libr,1901 Bibliotheca Lindesiana ... James Ludovic Lindsay Earl of Crawford,1910 **Cornwall** Ella Westland,1997 This work provides a historical analysis of Cornwall and its culture *The Seigneurial Residence in Western Europe AD C800-1600* Gwyn I.
