Techniques of Archaeological Excavation Philip Barker,1977

Archaeological Method and Theory Linda Ellis,2003-12-16 This Encyclopedia brings together the most recent scientific information on a collection of subjects that are too often and inconveniently treated in separate publications It provides a survey of archaeological method and theory as well as the application of physical and biological sciences in archaeological research Every aspect of archaeological work is represented from the discovery process to the ultimate disposition of materials Thus the reader will find entries on subject matter covering disciplinary theory legislation affecting the work of archaeologists pre excavation surveying excavation methodology on site conservation techniques post excavation analysis The rapid evolution of analytical technology is often superficially treated or not covered at all in textbooks or other commonly available sources Here the latest refinements in techniques such as radiometric dating stable isotopic analysis and the PCR technique of DNA analysis are presented clearly and authoritatively The discussion of these techniques is amplified by

including results of the work of professionals conducting interdisciplinary research and by covering the methodological enhancements provided by the physical and natural sciences Cultural property legislation regardless of its country of origin has affected how archaeologists conduct their work This encyclopedia covers all major U S legislation developed for the protection of cultural property including the recent Native American Graves Protection and Repatriation Act and offers a substantial article on worldwide legislation concerning the reburial of human remains and its effects on the present and future practice of archaeology Without some sort of conservation program at the point of excavation valuable materials may be inadvertently contaminated or destroyed Many simple and low cost techniques to promote both sample integrity and long term preservation for major classes of materials are described in this volume Traditional treatments of method and theory usually focus on prehistoric periods and are limited in their geographic range This volume includes discussions based on various historical periods on different continents as reflected in entries such as Historical Archaeology Industrial Archaeology Medieval Archaeology and Classical Archaeology

The Routledge Handbook of Archaeology and the Media in the 21st Century Lorna-Jane Richardson, Andrew Reinhard, Nicole Smith, 2024-06-20 The Routledge Handbook of Archaeology and the Media in the 21st Century presents diverse international perspectives on what it means to be an archaeologist and to conduct archaeological research in the age of digital and mobile media This volume analyses the present day use of new and old media by professional and academic archaeology for leisure academic study and or public engagement and attempts to provide a broad survey of the use of media in a wider global archaeological context It features work on traditional paper media radio podcasting film television contemporary art photography video games mobile technology 3D image capture digitization and social media Themes explored include archaeology and traditional media archaeology in a digital age archaeology in a post truth era and the future of archaeology Such comprehensive coverage has not been seen before and the focus on 21st century concerns and media consumption practices provides an innovative and original approach The Routledge Handbook of Archaeology and the Media in the 21st Century updates the interdisciplinary field of media studies in archaeology and will appeal to students and researchers in multiple fields including contemporary public digital and media archaeology and heritage studies and management Television and film producers writers and presenters of cultural heritage will also benefit from the many entanglements shared here between archaeology and the contemporary media landscape
