Cameroon Politics And Society In Critical Perspective:

Cameroon Jean-Germain Gros,2003 Annotation By its geography and diversity Cameroon has been called Africa's Crossroads Without a doubt the vibrancy of Cameroon society and the richness of its culture attest to the merit of the moniker Less remarkable has been Cameroon's attempt to democratize *Neoliberal Bandwagonism. Civil society and the politics of belonging in Anglophone Cameroon* Piet Konings,2009 While neoliberals typically view civil society organizations as vital channels for the implementation of economic and political reforms they are also inclined to blame the politics of belonging for the poor record of these reforms Piet Konings rejects such notions and argues that the relationship between civil society and the politics of belonging is more complex in Africa than Western donors and scholars are inclined to admit He argues that ethno regional associations and movements are more significant constituents of civil society in Africa than the conventional organizations that are often uncritically imposed or endorsed He shows how the politics of belonging so pervasive in Cameroon and indeed much of Africa during the current neoliberal economic and political reforms has tended to penetrate the entire range of associational life and he calls for a critical re appraisal of prevalent notions and assumptions about civil society in the interest of African reality Civil and Political Rights in Cameroon Avitus Agbor,2021-10-15 The book explores and appraises concepts related to human rights and situates them within the Cameroonian context

Cameroon's Social Democratic Front: Its History and Prospects as an Opposition Political Party (1990-2011)

Milton Krieger,2008 Cameroon's Social Democratic Front SDF was among the watershed challenges c 1990 by sub Saharan Africa's democratization forces against autocratic regimes but it crested in 1992 and has subsided since Yet the party survives participates in the National Assembly maintains a grass roots structure and prepares for a presidential ballot in 2011 that will likely determine its fate The author conducted research four times in Cameroon 1989 1999 focusing on the SDF since 1991 and maintains party contacts to the present The book assesses its history and its prospects covering the SDF in Africa wide as well as Cameroonian terms Krieger has given us the first superbly researched finely tuned analysis of the fortunes of a major contemporary African opposition party Cameroon's Social Democratic Front SDF Victor Le Vine Washington University St Louis USA The book goes far beyond its title and puts in context a daylight re emergence of political opposition in Cameroon To say that this long overdue history of the SDF party is a prolegomena to understanding contemporary Cameroon social forces is not an overstatement Ambroise Kom University of Yaounde I Cameroon a level headed but provocative examination of the structure and workings of a major African country the sobriety with which he evaluates institutions and leadership is commendable yielding exceptional analysis that will stand the test of time Toyin Falola Fellow of the Nigerian Academy of Letters and Fellow of the Historical Society of Nigeria Milton Krieger started teaching and research about sub Saharan Africa in 1970 Nine trips there include four research visits providing two years time in Cameroon 1989 99 The second 1991 coincided with villes mortes and turned his primary scholarship to the Social

Democratic Front Access to party documents officials and rank and file members included visitor status at the 1995 and 1999 national conventions Party contacts continue to the present

Identity Re-creation in Global African Encounters John Ayotunde Isola Bewaji, Adedoyin Aguoru, 2019-08-07 Identity Re creation in Global African Encounters explores race racial politics and racial transformation in the context of Africa s encounters with non African communities through various perspectives including oppression racialization of ethnic difference and identity deconstruction While the contributors recognize that ethnicity has long been a staple analytical category of engagements between African and non African communities they present a holistic view of the continent and its diaspora through race outside of both colonial and neocolonial binaries allowing for a more nuanced study of Africa and its diaspora

The Politics of Neoliberal Reforms in Africa Piet Konings, 2011 Neoliberalism has become the dominant development agenda in Africa Faced with a deep economic and political crisis African governments have been compelled by powerful external agencies in particular the Bretton Woods institutions and western states to pursue this agenda as a necessary precondition for the receipt of development aid What is particularly striking in Africa however is that neoliberal experiments there have displayed such remarkable diversity This may be due not only to substantial differences in historical economic and political trajectories on the African continent but also and maybe more importantly in the degree of resistance internal actors have demonstrated to the neoliberal reforms imposed on them This book focuses on Cameroon which has had a complex economic and political history and is currently witnessing resistance to the neoliberal experiment by the authoritarian and neopatrimonial state elite and various civil society groups It is the culmination of over twenty years of fine and refined research by one of the leading scholars of Cameroon today

Art and Political Thought in Bole Butake Emmanuel Ngwang, Kenneth Usongo, 2016-09-30 The book Art and Political Thought in Bole Butake through a pluralist critical approach interrogates Butake s major creative works Lake God And Palm Wine Will Flow The Survivors Shoes and Four Men in Arms Dance of the Vampires and The Rape of Michelle mainly in terms of their political underpinnings and cultural signification The intention is to place his drama within the socio political matrix of Cameroon and demonstrate the topicality of the issues of governance marginalization and corruption in Cameroon or Africa that Butake consistently foregrounds in his creative works The study opens with an overview of the historical and social milieu that feeds Butake s imagination and the introduction is followed by an interview of the playwright in which he explains his mission as a writer The next two chapters appraise the political symbolism of Butake s plays and chapter five undertakes a comparison of the colonial legacy and the culture of corruption in Butake s Lake God and The Rape of Michelle Women in Butake s imaginative universe play a non negligible role in change They are portrayed as political and social activists in their challenge to autocratic rule This is the leitmotif of chapter six which highlights the contribution of women towards political change in Cameroon In chapters seven and eight the focus is on articulating the cultural signification of Butake s plays in terms of political change Concomitantly these chapters also

demonstrate Butake's seamless incorporation of elements of oral literature in his drama as he interpolates proverbs, divinations and other elements of orality in his work. Chapter nine of the book points out how Butake foregrounds the character traits of his protagonists against the backdrop of traditional Noni religion as well as Christianity. Thus the bigotry and belligerence of both the Fon and Father Leo in *Lake God* for example are projected through a supernatural frame. The conclusion appraises the contemporaneity of Butake's drama. His oeuvre continues to inspire so many people from disenfranchised groups that see in his drama a path to reclaiming liberties and to critics who are challenged to hone their literary tools in the endeavor to situate his works within the dynamics of politics and culture in Africa.

Crisis and Creativity Piet Konings, D. Foeken, 2006. At times of economic and political crisis in Sub-Saharan Africa, urban dwellers display a large degree of creativity in their survival strategies by developing social networks and constructing imaginative and original practices and ideas. This volume views the urban neighbourhood from two different perspectives and explores the importance of these creative processes. The first approach considers the neighbourhood as a geographical domain in which people are engaged in a variety of activities to advance their material and immaterial well-being, making use of their wealth of opportunities, assets and diverse forms of natural, physical, financial, human and social capital. The second angle sees the neighbourhood as not necessarily geographically located or bounded but as having been created and defined by human beings. These neighbourhoods may take on the form of self-help organizations, associations or churches or may be based on gender, generational, ethnic or occupational identities. As the contributions from all over Sub-Saharan Africa show, the two approaches do not necessarily exclude each other.

When Reality Contradicts Rhetoric Jean-Germain Gros, Olga Prokopovych, 2005. The authors provide a compelling and balanced critique of the world's largest multilateral development lending agency in the context of globalization and the increasing domestication of market-based economic reforms. Adopting a tripartite historical, theoretical and empirical approach, the study shows how the Bank is still moored in neo-liberal market ideology and western hegemony, lacks transparency and democracy in its workings and boasts pro-poor policies that are little more than empty rhetoric. They conclude that the Bank must be radically transformed to meet to improve its record on lending to poor countries as well as to deal with the sharpened problem of poverty ushered in by globalization.

Mediating Germany Gerd Bayer, 2006. Containing a collection of essays, this volume offers case studies of popular fiction, theatre, hip-hop and rock music events like the love parade as well as developments in documentary filmmaking. The chapters provide an analysis of both the issues in popular culture and the legacy of popular art forms throughout the twentieth century.

Transforming Fragile States, 2007. The problems of fragile statehood and poor government performance rank high on the international agenda for action. In many affected countries, the population receives not even the most basic of social services and human rights are violated in many ways. The government is generally unable to

perform its core duties The capacities required are not in place or there is no genuine political will to undertake the necessary reforms The consequences of poor governance hit poor and disadvantaged sections of the population disproportionately hard The United Nations sees these states as the single most serious risk to peace and security at global and regional level The OECD states and international organizations have undertaken to step up their commitment in fragile states Now the international community faces the major challenge of helping to shape transition processes by means of suitable development strategies and instruments In this compilation experts express their views on this iss **Africa Today** ,2006 **Lagos Historical Review** ,2010 **Between Coordination and Cooptation** Leonardo Rafael Arriola,2008
