Camille Claudel Rodin Fateful Encounte:

Camille Claudel & Rodin Camille Claudel, 2005 Focuses on the relationship between two headstrong artists who worked in close collaboration for a while but then parted leading to misfortune for both of them but for Camille in particular Camille subsequently tried to carve out a path of her own through her sketches from nature scenes of daily life captured as they happened while Rodin created the work that he himself described as the linchpin of his aesthetic Balzac 1898 from publisher **"Interior Portraiture and Masculine Identity in France, 1789-1914"** Heather Belnap Jensen, 2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book's premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789-1914 provides a much needed rethinking of modern masculinity in this period *Nomadic Narratives, Visual Forces* Maria Tamboukou, 2010 The most thoughtful integration of paintings and epistolary narrative that I know Nomadic Narratives Visual Forces shows how letters do more than depict the real painter the analysis problematizes the relations between visual and written texts Insights from the author's meticulous archival research with autobiographical materials engage dynamically with Gwen John's art work resulting in a dialogic narrative about the complex subjectivity of a woman artist working in a male dominated world Drawing on contemporary theory Maria Tamboukou offers a new analytic perspective on the relation between the visual and the epistolary which will push the narrative turn in social research in exciting directions Catherine Kohler Riessman Boston College Book Jacket **Encyclopedia of Creativity**, 2011-05-20 The first edition of the successful Encyclopedia of Creativity served to establish the study of creativity is a field in itself Now completely updated and revised in its second edition coverage encompasses the definition of creativity the development and expression of creativity across the lifespan the environmental conditions that encourage or discourage creativity creativity within specific disciplines like music dance film art literature etc the relationship of creativity and mental health intelligence and learning styles and the process of being creative This reference also appeals to a lay audience with articles specifically on the application of creativity to business settings Available online via ScienceDirect and in limited print release Named a 2012 Outstanding Academic Title by the American Library Association's Choice publication Serves as a compendium of reviews of a number of domain specific

In the Fold between Power and Desire Maria Tamboukou, 2010-04-16 This book explores entanglements of power relations and forces of desire in life narratives and visual images The analysis draws on paintings and archival auto biographical writings of six fin de siècle women artists who are brought together as narrative personae in a genealogical exploration of the constitution of the female self in art The author offers an innovative theoretical approach to narrative research by bringing together feminist theories with Foucauldian and DeleuzoGuattarian analytics The book will be of particular interest for researchers and graduate students in the fields of feminist narrative and visual studies

Paris-Edinburgh Siân Reynolds, 2016-05-13 By the end of the nineteenth century Paris was widely acknowledged as the cultural capital of the world the home of avant garde music and art symbolist literature and bohemian culture Edinburgh by contrast may still be thought of as a rather staid city of lawyers and Presbyterian ministers academics and doctors While its great days as a centre for the European Enlightenment may have been behind it however late Victorian Edinburgh was becoming the location for a new set of cultural institutions with its own avant garde that corresponded with a renewed Scottish national consciousness While Morningside was never going to be Montparnasse the period known as the Belle Epoque was a time in both French and Scottish society when there were stirrings of non conformity which often clashed with a still powerful establishment And in this respect French bourgeois society could be as resistant to change as the suburbs of Edinburgh With travel and communication becoming ever easier a growing number of international contacts developed that allowed such new and radical cultural ideas to flourish In a series of

linked essays based on research into contemporary archives documents and publications in both countries as well as on new developments in cultural research this book explores an unexpected dimension of Scottish history while also revealing the Scottish contribution to French history In a broader sense and particularly as regards gender it considers what is meant by modern or radical in this period without imposing any single model In so doing it seeks not to treat Paris Edinburgh links in isolation or to exaggerate them but to use them to provide a fresh perspective on the internationalism of the Belle Epoque
