Camus A Critical Examination:

Camus David Sprintzen, 1991-02-01 Throughout his life Albert Camus confronted the central dramas of our civilization the existential anxiety over the death of God and the absurdity of human existence the political struggles over social injustice capital punishment and national liberation and the international focus on nuclear annihilation violations of human rights and torture Addressing the West at its metaphysical and mythic roots Camus sought to diagnose the interior forces that seemed to propel humanity toward self destruction David Sprintzen offers the first original and comprehensive analysis in English of the thought of Albert Camus from a philosophical perspective Previous literary and psychoanalytical studies have presented Camus's life and works biographically but philosophers have neither taken his thought seriously nor examined his work as a whole With analytical precision and philosophical depth Sprintzen confronts a corpus whose contemporary resonances as well as Greco Roman and Judeo Christian origins dramatize the metaphysical foundations of Western experience In this seventy fifth anniversary of the philosopher's birth *Camus A Critical Examination* shows how his analysis of political action offers a radical and nondogmatic perspective from which contemporary struggles can gain significant illumination Author note David Sprintzen is Professor of Philosophy at C W Post College of Long Island University *Camus, a Critical Examination* David Sprintzen, 1988 Throughout his life Albert Camus confronted the central dramas of our civilization the existential anxiety over the death of God and the absurdity of human existence the political struggles over social injustice capital punishment and national liberation and the international focus on nuclear annihilation violations of human rights and torture Addressing the West at its metaphysical and mythic roots Camus sought to diagnose the interior forces that seemed to propel humanity toward self destruction David Sprintzen offers the first original and comprehensive analysis in English of the thought of Albert Camus from a philosophical perspective Previous literary and psychoanalytical studies have presented Camus's life and works biographically but philosophers have neither taken his thought seriously nor examined his work as a whole With analytical precision and philosophical depth Sprintzen confronts a corpus whose contemporary resonances as well as Greco Roman and Judeo Christian origins dramatize the metaphysical foundations of Western experience In this seventy fifth anniversary of the philosopher's birth *Camus A Critical Examination* shows how his analysis of political action offers a radical and nondogmatic perspective from which contemporary struggles can gain significant illumination Author note David Sprintzen is Professor of Philosophy at C W Post College of Long Island University *The Development of Albert Camus's Concern for Social and Political Justice* Mark Orme, 2007 Chronological in character the book seeks to evaluate the evolution of Camus's lifelong preoccupation with sociopolitical justice as expressed in a range of nonfictional genres essays journalism articles speeches notebooks and personal correspondence where the writer's own concerns come directly to the fore *The Existentialist Reader* Paul S. MacDonald, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company **Albert Camus's "The New Mediterranean Culture"** Neil Foxlee, 2010 This book was shortlisted

for the R H Gapper prize 2011 On 8 February 1937 the 23 year old Albert Camus gave an inaugural lecture for a new Maison de la culture or community arts centre in Algiers Entitled La nouvelle culture méditerranéenne The New Mediterranean Culture Camus's lecture has been interpreted in radically different ways while some critics have dismissed it as an incoherent piece of juvenilia others see it as key to understanding his future development as a thinker whether as the first expression of his so called Mediterranean humanism or as an early indication of what is seen as his essentially colonial mentality These various interpretations are based on reading the text of The New Mediterranean Culture in a single context whether that of Camus's life and work as a whole of French discourses on the Mediterranean or of colonial Algeria and French discourses on that country By contrast this study argues that Camus's lecture and in principle any historical text needs to be seen in a multiplicity of contexts discursive and otherwise if readers are to understand properly what its author was doing in writing it Using Camus's lecture as a case study the book provides a detailed theoretical and practical justification of this multi contextualist approach

Suicide in French Thought from Montesquieu to Cioran Zilla Gabrielle Cahn, 1998 Suicide stems in large part from the human condition and as such is not a problem that can be solved Former draconian and punitive laws against it have in the main been eliminated but it remains a stigma and a heartache In the twentieth century suicide has become a problem for sociologists psychiatrists and social policymakers to solve In past centuries however suicide was a subject most fit for philosophers theologians writers and as the nineteenth century progressed physicians What establishes itself clearly throughout is that social attitudes and public policies toward suicide as toward other important human issues mirror the

needs and peculiar circumstances of a culture Yet sanctions against suicide except in highly prescribed instances transcend cultural specificity To the question when if ever is suicide permissible Western peoples and institutions both secular and religious reply never Duty to others to God to society or to all of these virtually always overrides personal desire or reasons to commit suicide
