## **Can Ethics Be Christian:**

*Can Ethics Be Christian?* James M. Gustafson, 1975 Is there a special relation between religious beliefs and moral behavior In particular is there a distinctive Christian moral character and how is this manifested in moral actions The influential theologian James M Gustafson probes these questions and offers an analysis of the distinctively religious reasons of the heart and mind which constitute the basis for a Christian ethics Professor Gustafson grounds his discussion in a concrete example of moral conduct which deeply impressed him The incident narrated in detail at the start and referred to throughout concerns a nonreligious colleague who came to the aid of an intoxicated soldier Although seemingly trivial this incident in the author's view approximates the normal sorts of experiences in which individuals have to make moral decisions every day it becomes a touchstone to investigate the logical social and religious elements in moral decision making

**Can Ethics be Christian?** James M. Gustafson, 1975      *Christian Ethics* Timothy R. Gaines, 2021 One of the primary aims of Christian ethics is to discover how we can convert our work toward God's purposes so that God can make our work holy In this book Gaines illuminates this topic as something the people of God can use to reorient our lives toward the way of Jesus and the mission of God in the world Christians are called to action in God's created world which is why reasoning engages practice in the chapters of this book so that Wesleyan readers can think and act morally in ways that are faithfully

Christian and holy in response to the leading of God      **Christ and the Moral Life** James M. Gustafson, 1979-06-15 In this work originally published in 1968 the distinguished theologian James M Gustafson asks the fundamental question What is the significance of Jesus Christ for the moral life His answer is in the form of an ethical map showing the ways in which theological affirmations about Christ relate to moral life in the writings of a number of important Christian thinkers

Banner, 2009-04-20 This enlightening book steers readers through the challenges and moral issues providing a clear and decisive history of the main figures and texts in Christian ethics A short and lively history of Christian ethics exploring how Christianity has always had to grapple with complex moral problems from questions about the status of early Christians who renounced their religion under Roman torture through to current debates about euthanasia Engages with the main texts and figures in Christian ethics including Augustine Benedict Aquinas Luther and Barth Considers questions such as human will the proper form of Christian life natural law and whether human nature is at odds with Christian ethics Concludes with a thought provoking chapter considering the role that Christian ethics can play in contemporary moral debates and ethical dilemmas      **Introduction to Christian Ethics** Ellen Ott Marshall, 2018-10-30 All Christians read the Bible differently pray differently value their traditions differently and give different weight to individual and corporate judgment These differences are the basis of conflict The question Christian ethics must answer then is What does the good life look like in the context of conflict In this new introductory text Ellen Ott Marshall uses the inevitable reality of difference to center and organize her exploration of the system of Christian morality What can we learn from Jesus creative use of conflict in situations that were especially attuned to questions of power What does the image of God look like when we are trying to recognize the divine image within those with whom we are in conflict How can we better explore and understand the complicated work of reconciliation and justice This innovative approach to Christian ethics will benefit a new generation of students who wish to engage the perennial questions of what constitutes a faithful Christian life and a just society      *Christian Ethics (Revised*

Edition) Wayne Grudem, 2024-09-18 What Does the Bible Teach about How to Live in Today's World How should Christians live when the surrounding culture is increasingly hostile to Christian moral values Granted the Bible is our guide but how can we know if we are interpreting it rightly with regard to ethical questions about wealth and poverty marriage and divorce birth control abortion euthanasia homosexuality ethical business practices environmental stewardship and dozens of other issues And on a very practical level how can we know God's will in the ordinary decisions of life To address questions like these Wayne Grudem author of the bestselling book Systematic Theology draws on 40 years of teaching classes in ethics to write this wide ranging introduction to biblical moral reasoning organized according to the structure of the Ten Commandments He issues a challenging call for Christians to live lives of personal holiness and offers a vision of the Christian life that is full of joy and blessing through living each day in a way that is pleasing to God Written by Wayne Grudem Bestselling author of Systematic Theology and the What the Bible Says About series Biblical and Applicable Teaches readers how to protect 7 central tenets of God's law God's honor human authority life marriage property truth and purity of heart Accessible An ideal textbook for Christian college and seminary ethics classes with straightforward language and a bibliography for the topic at the end of each chapter Replaces ISBN 978 1 4335 4965 6 **Fidelity of Heart** James E. Gilman, 2001-01-25 What does it take to follow and not merely admire Jesus How do religious affections reshape the practice of Christian values like love peace justice and compassion How can they possess both universal truth and local meaning What role can they play in public life In Fidelity of Heart Gilman answers these questions while showing in an innovative and provocative approach how Christians can practice these values in ways continuous with the life of Jesus Christian Perspectives on Legal Thought Michael W. McConnell, Robert Cochran, Angela C. Carmella, 2008-10-01 This book explores for the first time the broad range of ways in which Christian thought intersects with American legal theory Eminent legal scholars including Stephen Carter Thomas Shaffer Elizabeth Mensch Gerard Bradley and Marci Hamilton describe how various Christian traditions including the Catholic Calvinist Anabaptist and Lutheran traditions understand law and justice society and the state and human nature and human striving The book reveals not only the diversity among Christian legal thinkers but also the richness of the Christian tradition as a source for intellectual and ethical approaches to legal inquiry The contributors bring various perspectives to the subject Some engage the prominent schools of legal thought liberalism legal realism critical legal studies feminism critical race theory and law and economics Others address substantive areas including environmental criminal contract torts and family law as well as professional responsibility Together the essays introduce a new school of legal thought that will make a signal contribution to contemporary discussions of law The Ethics of the Christian Life Theodor Häring, 1909 *Is There a Christian Ethics?* Lucien Richard, 1988 The Groundwork of Christian Ethics Norman Hamilton Galloway Robinson, 1972 Many theologians as well as many philosophers may be heard today asserting that there neither is nor can be any such thing as a uniquely Christian ethical system On the one hand it is

argued that an ethic based on revelation must be inherently static unable to respond to new demands and situations but if the ethical code is little more than a refinement of so called natural law or natural morality then there is no reason to term it Christian In consequence most of the current discussion in the field of ethics addresses itself almost exclusively to a consideration of such specific issues as war sex abortion or mercy killing Professor N H G Robinson however turns his attention to the basic question of what Christian ethics really is Morality Robinson argues was not created by Christianity but exists independently all men are subject to it whatever their belief This fundamental truth about human beings is of profound significance for theology which must continue to insist upon an objective moral code We will never understand Christian ethics Robinson asserts until we accept the doctrine of natural morality But there can hardly be two moralities one natural and the other supernatural each competing for our obedience Rejecting both the medieval and the post Reformation approaches to the relationship of natural and Christian ethics Robinson looks to the redemptive nature of Christian revelation for his answer Moral standards are not merely imposed upon us nor do we invent them we discover them their authority depends on their existing independently of us It is the entry of redemptive revelation into the system of moral philosophy that creates what Robinson describes as natural morality judged reoriented and transformed and brought under the forgiving and reconciling lordship of Christ which constitutes the Christian life Here then is no inflexible static code incapable of responding to change Rather Robinson describes a creative ethic that is objective normative and theocentric a morality always in the making it is a way of life not a closed system Moral rules he overserves are yesterday s moral solutions Teh

**Groundwork of Christian Ethics** is a major contribution to the field of Christian ethics which no serious student can afford to overlook Publisher **Christian Ethics and the Church** Philip Turner, 2015-09-29 This book introduces Christian ethics from a theological perspective Philip Turner widely recognized as a leading expert in the field explores the intersection of moral theology and ecclesiology arguing that the focus of Christian ethics should not be personal holiness or social reform but the common life of the church A theology of moral thought and practice must take its cues from the notion that human beings upon salvation are redeemed and called into a life oriented around the community of the church This book distills a senior scholar s life work and will be valued by students of Christian ethics theology and ecclesiology New & Enlarged Handbook of Christian Theology Donald W. Musser, Joseph Price, 2011-09-01 This handbook provides thorough introductory articles on important themes in Christian theology Along with cross references and select bibliographies it is an indispensable reference source The Handbook consists of 148 topical entries arranged alphabetically Instead of a Table of Contents a Routes For Reading page suggests related entries and cross referencing makes surfing this volume easier than ever **Christian Ethics and Commonsense Morality** Kevin Jung, 2014-11-27 Christian Ethics and Commonsense Morality goes against the grain of various postmodern approaches to morality in contemporary religious ethics In this book Jung seeks to provide a new framework in which the nature of common Christian moral beliefs and practices can be given a

new meaning He suggests that once major philosophical assumptions behind postmodern theories of morality are called into question we may look at Christian morality in quite a different light On his account Christian morality is a historical morality insofar as it is rooted in the rich historical traditions of the Christian church Yet this kind of historical dependence does not entail the evidential dependence of all moral beliefs on historical traditions It is possible to argue for the epistemic autonomy of moral beliefs according to which Christian and other moral beliefs can be justified independently of their historical sources The particularity of Christian morality lies not in its particular historical sources that also function as the grounds of justification but rather in its explanatory and motivational capacity to further articulate the kind of moral knowledge that is readily available to most human beings and to enable people to act upon their moral knowledge     The Public Forum and Christian Ethics Robert Gascoigne, 2001 This book addresses the question of the communication of Christian ethics in the public forum of liberal pluralist societies Drawing on debates in philosophy theology and sociological theory it relates the problem of communication to fundamental questions about the nature of liberal societies and the identity of Christian faith and the Christian community With particular emphasis on Kantian and neo Kantian ethics it explores the link between autonomy and community in liberal societies The theology of *communio* expressed in revealed Christian traditions can reconcile autonomy and community Any Christian attempt to communicate this vision must also reflect on Christianity's own identity especially the ways in which its own self consciousness grows in critical interaction with secularity In this light Christian ethical communication is both a witness to a distinctive identity founded in the revelation of the triune God and a vision of universal human solidarity which can reconcile autonomy and community     *Christian Ethics: Christian ethics, translated from the Danish, by C.Spence* Hans Martensen, 1891
