*Edinburgh Companion to Anthony Trollope* Van Dam Frederik Van Dam, 2018-11-14 Explores the many ways in which Anthony Trollope is being read in the twenty first century Since the turn of the century the Victorian novelist Anthony Trollope has become a central figure in the critical understanding of Victorian literature By bringing together leading Victorianists with a wide range of interests this innovative collection of essays involves the reader in new approaches to Trollope's work The contributors to this volume highlight dimensions that have hitherto received only scant attention and in doing so they aim to draw on the aesthetic capabilities of Trollope's twenty first century readers Instead of reading Trollope's novels as manifestations of social theory they aim to foster an engagement with a far more broadly theorised literary culture Key Features The most innovative collection of original essays on Anthony Trollope to date Enables the reader to see the direction of Trollope studies and Victorian studies in the twenty first century Situates Trollope's work in newly emerging critical contexts such as media networks and economics Makes use of pioneering developments in stylistics ethics epistemology and reception history

**Experiencing Architecture in the Nineteenth Century** Edward Gillin, H. Horatio Joyce, 2018-10-18 Bringing together

fourteen original essays this collection opens up new perspectives on the architectural history of the nineteenth century by examining the buildings of the period through the lens of experience With a focus on the experience of the ordinary building user rather than simply on the intentions of the designer the book shows that new and important insights can be brought to our understanding of Victorian architecture The chapters present a range of ideas and new research some examining individual building case studies from grand hotels and clubhouses in New York to the parliament buildings of Westminster and others exploring conceptual questions about the nature of architectural experience whether sensory or otherwise Yet they share the premise that the idea of the experience of architecture took on a new and particular significance with the rise of industrial modernity and they examine what contemporary people both architects and non architects understood by this idea The insights in this volume extend beyond the study of Victorian architecture Together they suggest how experience might be used as a framework to produce a more convincingly historical account of the artefacts of architectural history

**The British Aristocracy in Popular Culture** Stefania Michelucci,Ian Duncan,Luisa Villa,2020-04-29 As traditional social hierarchies fall away ever steeper levels of economic inequality and the entrenchment of new class distinctions lend a new glamor to the idea of aristocracy witness the worldwide popularity of Downton Abbey or the seemingly insatiable public fascination with the private lives of the British royal family This collection of new essays investigates the enduring attraction to the icon of the aristocrat and the spectacle of aristocratic society It traces the ambivalent reactions the aristocracy provokes and the needs political ideological psychological and otherwise it caters to in modern times when the economic power of the landed classes have been eroded and their political role curtailed In this interdisciplinary collection aristocracy is considered from multiple viewpoints including British and American literature European history and politics cultural studies linguistics visual arts music and media studies Frances Trollope and the Novel of Social Change Brenda Ayres,2002 Victorian writer Frances Trollope has largely been relegated to a mere footnote in literary history as simply the mother of Anthony Equally unfortunate is that aside from her nonfiction work *Domestic Manners of the Americans* her 34 novels have been out of print since the nineteenth century She was nonetheless the most provocative female writer of the early Victorian period who used the novel to impel social change She has been credited for writing the first anti slavery novel that predates *Uncle Tom's Cabin* along with a number of works that incited reform legislation regarding bastardy clauses poor laws and labor conditions Expert contributors examine her life and writings her social activism and the impact of her works The book includes discussions of her influence on Anthony Trollope the rivalry between Frances Trollope and Charles Dickens her belief in the power of female friendship her ambivalence toward the ability of women to effect social change her thoughts on Evangelicalism her views on women and aging and her innovative contribution to early crime fiction Contributors argue for the value of reprinting her novels and travel books and point to her enduring literary legacy *The Jew in the Victorian Novel* Anne Aresty Naman,1980 *Paddy and Mr. Punch* Robert Fitzroy Foster,1995 Elizabeth Bowen

one of the writers considered in this book described the relationship of Ireland and England as a mixture of showing off and suspicion nearly as bad as sex In these essays Roy Foster explores the patterns of resentment exploitation dependence and rejection which were created by centuries of proximity colonization and emigration Often seen through the individual experiences of people caught between England and Ireland a varied gallery including Randolph Churchill Thackeray Trollope Yeats Parnell and the notorious Mrs O Shea these intersections also cut across subjects like the representation of the Irish in Victorian journalism and fiction the roots of constitutional nationalist agitation and the making of literary reputations The last essay *Marginal Men and Micks on the Make* is a wide ranging discussion of the uses of exile both to and from Ireland Against the cut and dried stereotypes of Anglo Irish relations an overall ambiguity is asserted here whether the topic examined is the flawed structure of the Act of Union the way words are used in Irish political rhetoric or the divided allegiances of Parnell Yeats and Bowen These closely linked essays stress assonances as well as dissonances and provide a commentary on neglected aspects of literary history and national identity
