## Can You Prevent Cancer:

*Can You Prevent Cancer?* Ernest H. Rosenbaum, 1983      How to Lower Your Cancer Risk Dr. Erika Freeman, 2024-08-15  
There are many dreadful stories about cancer. It kills, it reduces life expectancy and you can lose your precious organs while trying to deliver yourself from it. Who brought such a curse on us? You may be tempted to ask. But whether we are cursed or the earth is just running its course, we have the power to either sit with folded hands and let cancer approach our dwelling or put up a No Cancer sign to guard our life. Can you truly decide whether you can have cancer or not? Not really. But you can choose to lower your risk of having it. Many people succeed in this quest and truly live fulfilling lives without cancer. This book shares how you can manage your risk for cancer and live a long and healthy life. As popularly said, knowledge is power. It all starts with how much you understand the condition you want to prevent.      **National Cancer Program, 1979** United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Health and Scientific Research, 1979

**Stopping Cancer Before It Starts** American Institute for Cancer Research, 2000-04-18. Research shows an undeniable link between diet and cancer. In fact, 60 to 70 percent of cancers can be prevented by making the right choices about food, exercise, and tobacco use. *Stopping Cancer Before It Starts* tells you how to make simple changes in your everyday life that can radically reduce the risk of cancer. PART I WHAT YOU NEED TO KNOW ABOUT CANCER Separates popular myths from facts and statistics. Explains how simple lifestyle changes could prevent an estimated 375,000 cancer cases in the U.S. annually. Describes how one simple dietary adjustment could reduce cancer rates by 20 percent. Examines the most common types of cancer from lung cancer to breast cancer and shows the influence of diet and lifestyle factors on them. PART II CREATING A MORE CANCER RESISTANT YOU Shows you how to analyze your cancer risk. Reveals how lifestyle choices affect cancer. Examines the relationship between excess calorie intake and increased cancer risk. PART III THE BEST NUTRITION FOR CANCER PREVENTION Gives the how, what, and why to eat for cancer prevention. Offers the most current information on vitamins, minerals, and other dietary supplements. PART IV RECIPES AND MENUS Offers dozens of healthy and savory recipes. Includes simple menus that require little time or planning. *Stopping Cancer Before It Starts* provides the facts you need to make the right choices to prevent cancer.      **The Thyroid Cancer Book** M. Sara Rosenthal, Ph.D., 2002-09-30. M. Sara Rosenthal, Ph.D., bestselling author of *The Thyroid Sourcebook* recommended by *The New York Times*, *The Thyroid Sourcebook for Women*, and *The Hypothyroid Sourcebook*, has just published *The Thyroid Cancer Book*, the only consumer book to date devoted to thyroid cancer. A thyroid cancer survivor herself, Rosenthal wrote the book she wishes she had when diagnosed in 1983. *The Thyroid Cancer Book* explains all forms of thyroid cancer and its treatment in plain language. It was written in consultation with the leading medical experts on thyroid cancer in North America and is the only book of its kind in the world. It includes extensive information on significant risk factors for developing the disease and how to find and investigate lumps in the neck. Papillary and follicular thyroid cancers, as well as the less common medullary and

anaplastic cancers Treatment options surgery and radioactive iodine Post treatment follow up whole body scans and Thyrogen Self healing and complementary therapies The emotional impact of cancer on families and loved ones Palliative care While thyroid cancer accounts for roughly two percent of all cancers it s among the fastest growing cancers in incidence Its causes in North America are associated with fallout from nuclear testing in the American midwest and environmental causes which Rosenthal also writes about in detail Recommended by Johns Hopkins Thyroid Tumor Center The Thyroid Foundation of America The American Foundation for Thyroid Patients The Thyroid Foundation of Canada CancerHelpUK and thyroid cancer patients from both Thyca and Thry Vors

**Preventing Cancer Recurrence** James C. Shum, 2016-09 Dear Readers First of all I want to say I want to prevent cancer recurrence Recurrence means cancer coming back I survived a Desmond tumor 15 years ago A Desmond tumor is a very low grade sarcoma only 10% chance to recur I know with the lifestyle adjustments in this book I learned and do the chance of recurrence is probably zero Recurrence or cancer coming back is fatal in this disease as I read in Memorial Sloan Kettering Cancer Center literature The next thing I want to mention is the price you pay for this book is the cost of printing this book I just rounded off the pennies of the cost figure provided by the publisher to make it a lucky number The number 38 means being alive and thriving I am a physician specializing in cancer treatment That is I am an oncologist For the last 10 years before my retirement I preached lifestyle interventions to my cancer patients in addition to them receiving standard treatments I hoped to treat them better I did not have much expectations in life style change ended up controlling cancer in the beginning Why simply cancer is a hell lot of a disease You don t expect little things like exercise which is one of the seven life style interventions could do much against this devilish disease isn t it But to my big surprise patients with bad cancers that were expected to survive about 1 or 2 year Instead they survived 3 5 and 7 years And it was most of them I was exhilarated Patients and families were happy They were smiling Can you imagine a person with terminal cancer or their family smiling genuinely But after all a few more years is a few more years My once sad oncologist life was turned into an acceptable one I thrived and got the highest rating Thanks MY oncologist life used to be a sad one For more than 30 years I was sad all the time inside but now I am a happy oncologist I would love to work till the day I die But there was something more important There was another calling All the cancer patients in the world may not have known this cancer fighting weapon they can pick up and work miracles In the web world one can access Google or others and find millions of ways to fight cancer as one can read What is the real thing As a cancer survivor and a cancer specialist I know My patients case histories assured me of what really can beat cancer So I reluctantly retired though it was already beyond my retirement age just to write books to help prevent cancer recurrence I was reluctant for I loved my cancer patients and enjoyed treating them But I have to do it This is a higher calling If you hesitate to believe that simple lifestyle interventions could help you prevent a good cancer from coming back I understand Good cancer coming back Yes Good cancers do come back given time Though the chance is small Even stage zero breast cancers can come back by 20% or 30%

chance Stage zero here is ductal breast cancer in situ No recurrence Unbelievable But I searched my memory hard I really don't remember even a single case of a good breast cancer that ever recurred It does not seem real Could it be I am getting senile No that is what the impression I have I am smiling on this fond memory Moderate amount of exercise is one of the 7 lifestyle interventions I emphasized in this book How powerful is it Two major studies showed it prevented cancer by 40-60% It also prevented cancer recurrence Hail to these two big studies from major US universities They have costed more than two hundred million dollars It is worth every single penny There are other similar studies showing the same percentage cancer prevention for different cancers just doing simple exercise like walking There are studies from all over the world confirming that With this said I hope you would benefit from it God bless
