Canadian Cities in Transition, 2020 A long standing market leading text for urban geography courses with a Canadian perspective Canadian Cities in Transition now in its sixth edition continues to examine the critical issues and major transformations taking place in urban Canada Examining all facets of Canadian cities including historical evolution dynamics of economy environmental impacts urban lifestyles cultural makeup social structure infrastructures governance planning and appearance the text is crafted to help the next generation address the urban problems they are inheriting and find solutions for them With new chapters on digital cities and sustainable development as well as new and expanded coverage of contemporary issues such as accessibility gentrification and the rise of the creative class the new edition offers a comprehensive and current study of Canadian cities written by Canadians for Canadians **Canadian Cities in Transition**

Trudi E. Bunting, Pierre Filion, 2006 This collection of articles includes the work of newer younger urban scholars There are new chapters on Canadian perspectives on globalization and world city growth immigration and urban change and many extensively re written chapters from the previous edition **Canadian Cities in Transition** Pierre Filion, Tara

Vinodrai, Markus Moos, Ryan Christopher Walker, 2015-02-06 Canadian Cities in Transition is an unparalleled examination of the critical issues and major transformations taking place in urban Canada Examining all facets of Canadian cities including historical evolution economic dynamics environmental impacts and urban lifestyles this well balanced resource is crafted to help the next generation address the urban problems they have inherited **Canadian Cities in Transition** Trudi

Bunting, Pierre Filion, Ryan Walker, 2010 This completely revised fourth edition of Canadian Cities in Transition examines in depth the major transformations taking place in urban Canada and the transformation that must be set in motion if the society is to survive Presenting the city in all its facets historical evolution economic dynamics environmental impacts urban lifestyles cultural makeup social structure infrastructures governance planning appearance it is designed to help the next generation address the urban problems they are inheriting Topics new to this edition include Aboriginal peoples in urban Canada urban food systems the need for more walkable cities to stem the growing obesity epidemic and the startling but

accurate concept of cities as human feedlots *Canadian Cities in Transition* Trudi E. Bunting, Pierre Filion, 1991 As the federal government's recent New Deal for Cities suggests the importance of cities is now widely recognized Large urban centres are seen at once as primary engines of the economy and as concentrations of societal problems poverty homelessness criminality environmental degradation Calls are thus mounting not only for the allocation of more resources but for the adoption of new policies grounded in urban realities that will enable Canadian cities to function more effectively This third edition of *Canadian Cities in Transition* has been completely revised and updated Examining the uneven development and uncertain future of Canadian cities 41 specialists in the field urban geographers political scientists urban planners civil engineers offer state of the art understanding of everything from the evolution of the Canadian urban system to site specific design problems of transportation and infrastructure the containment of urban sprawl the impacts of immigration and gentrification and the sustainability of cities both environmentally and economically The 27 chapters are supported by abundant illustrative material maps tables figures and photographs and followed by two appendices one discussing the changing nature of urban research and the other presenting essential data on Canada's census metropolitan areas In addition for the first time this new edition includes a comprehensive bibliography Required reading for students of Canadian urban geography and urban studies *Canadian Cities in Transition Local Through Global Perspectives* will also be an invaluable resource for anyone concerned about the future of Canada's cities Book jacket **The Changing Social**

Geography of Canadian Cities Larry S. Bourne, David Ley, 1993 The contributors to this volume demonstrate the richness and diversity of the social landscapes and communities in Canadian urban centres emphasizing changes which occurred in the period from the mid 1960s to the early 1990s The nineteen non technical and integrative essays include reviews of the literature empirical studies and discussions of policy issues CONTENTS Introduction The Social Context and Diversity of Urban Canada David F Ley and Larry S Bourne Part One Patterns People and Place in Urban Canada Evolving Urban Landscapes D W Holdsworth Measuring the Social Ecology of Cities W K D Davies and R A Murdie Demography Living Arrangement and Residential Geography J R Miron Urban Social Behaviour in Time and Space D G Janelle Part Two Contexts Social Structure and Urban Space Migration Mobility and Population Redistribution E G Moore and M W Rosenberg The Emerging Ethnocultural Mosaic S H Olson and A L Kobayashi Work Labour Markets and Households in Transition D Rose and P Villeneuve Housing Markets Community Development and Neighbourhood Change Larry S Bourne and T Bunting Part Three Places Selected Locales Integrating Production and Consumption Industry Class Ethnicity and the Jews of Toronto D Hiebert Past Elites and Present Gentry Neighbourhoods of Privilege in the Inner City David F Ley From Periphery to Centre The Changing Geography of the Suburbs L J Evenden and G E Walker The Social Geography of Small Towns J C Everitt and A M Gill Part Four Needs Social Well being and Public Policy Social Planning and the Welfare State J T Lemon The Meaning of Home Home Ownership and Public Policy R Harris and G J Pratt Homelessness M J Dear and J Wolch Geography of Urban

Canadian Cities in Transition Trudi E. Bunting, Pierre Filion, 2000 Canadian Cities in Transition brings together newly commissioned articles in order to provide a detailed overview of recent trends affecting Canadian cities and future policy implications these trends will have on Canadian cities Aimed at students studying urban geography and focusing specifically on the Canadian city it provides the most current research available Divided into five sections national perspectives regional perspectives intra urban perspectives urban functions and social issues and the public sector the book covers a wide range of subjects Starting with the Canadian city in the global context and urbanization in historical perspective it concludes with an examination of issues such as the inner city housing the urban retail landscape and planning and development The second edition is a significant revision from the first with numerous new articles new contributors and a much more closely linked editorial structure The new second edition includes more emphasis on planning on the environment and on urban design as well as more information on the contemporary social and economic transformations which are affecting society as a whole and echoed in cities *Canadian Cities in Transition* Trudi E. Bunting, Pierre Filion, 2000 **CANADIAN CITIES IN TRANSITION; EDITED BY... & PIERRE FILION.** Trudi Bunting, 1991 **Canadian Geography** Thomas A. Rumney, 2009-12-10 Canadian Geography A Scholarly Bibliography is a compendium of published works on geographical studies of Canada and its various provinces It includes works on geographical studies of Canada as a whole on multiple provinces and on individual provinces Works covered include books monographs atlases book chapters scholarly articles dissertations and theses The contents are organized first by region into main chapters and then each chapter is divided into sections General Studies Cultural and Social Geography Economic Geography Historical Geography Physical Geography Political Geography and Urban Geography Each section is further sub divided into specific topics within each main subject All known publications on the geographical studies of Canada in English French and other languages covering all types of geography are included in this bibliography It is an essential resource for all researchers students teachers and government officials needing information and references on the varied aspects of the environments and human geographies of Canada **Global Port Cities in North America** Boris Vormann, 2014-11-27 As the material anchors of globalization North America's global port cities channel flows of commodities capital and tourists This book explores how economic globalization processes have shaped these cities political institutions social structures and urban identities since the mid 1970s Although the impacts of financialization on global cities have been widely discussed it is curious that how the global integration of commodity chains actually happens spatially creating a quantitatively new global organization of production distribution and consumption processes remains understudied The book uses New York City Los Angeles Vancouver and Montreal as case studies of how once redundant spaces have been reorganized and crucially reinterpreted so as to accommodate new flows of goods and

people and how in these processes social environmental and security costs of global production networks have been shifted to the public

Community Indicators Measuring Systems Rhonda Phillips, 2017-09-08 Community indicators measuring systems represent a mechanism to improve monitoring and evaluation in planning incorporating citizen involvement and participation They reflect the interplay between social environmental and economic factors affecting a region s or community s well being and as such can be extremely valuable to planners and developers Yet little research has been conducted on their efficacy This book provides a comprehensive review of how community development indicators evolved and examines their interplay with planning and development It questions how we adequately measure concepts associated with indicators systems and whether these systems are sustainable and can best evolve In doing so the book allows a better understanding of the theoretical underpinnings of community indicators measuring systems as well as how best to design and implement them

Canada's Cities in a Changing World 1920-2120 Daniel Hoornweg, 2025-09-30 This book provides a deeper understanding of cities and how they underpin Canada s culture and prospects Where are Canada s cities best in class Where do they need urgent care Why is the most important determinant of a rural Albertan or northern Ontario resident the success of the country s cities How are Canada s cities inextricably anchored to the expansive open spaces of the countryside Through a sweeping 200 year timeframe key trends and influences emerge Many of these are common around the world yet much is also unique to Canada s geography A deeper understanding of the history of Canada s cities where cities are today relative to their international peers and what is likely to transpire over the next century will lead to better policy decisions The time frame is also consistent with the Haudenosaunee Iroquois philosophy that decisions should support a sustainable world seven generations into the future about 200 years This is the halftime report of Seven Generations of Canada s cities

Regional Geography of the United States and Canada Tom Lee McKnight, 1997 An appreciation of the regional geography of North America this revised text emphasizes the description and interpretation of North American landscapes including their sequential development It covers issues ranging from ecosystems and urban morphology to agriculture and inland waterways
