Relocating Middle Powers Andrew F. Cooper, Richard A. Higgott, Kim R. Nossal, 2007-10-01 The fall of the Berlin Wall and the disintegration of the Soviet Union were only two of the many events that profoundly altered the international political system in the late 1980s and early 1990s In a world no longer dominated by Cold War tensions nation states have had to rethink their international roles and focus on economic rather than military concerns This book examines how two middle powers Australia and Canada are grappling with the difficult process of relocating themselves in the rapidly changing international economy The authors argue that the concept of middle power has continuing relevance in

contemporary international relations theory and they present a number of case studies to illustrate the changing nature of middle power behaviour. In particular they examine the trend towards the amalgamation of the foreign and trade ministries in both Canada and Australia and the growing importance of regional trading blocs particularly Asia Pacific Economic Cooperation and the North American Free Trade Agreement. Relocating Middle Powers is the first book to explore the similarities and differences in the foreign policies of two middle powers in a new era of international relations. **A Bibliography of Works on Canadian Foreign Relations, 1991-1995** Jennifer McNenly, Canadian Institute of International Affairs, 1998 **Canadian Periodical Index**, 1994 *Studies in Political Economy*, 2003 **National Laws, NAFTA Panels and Multilateral Provisions** A. Communicate Vol 1 is a timely collection that chronicles the extraordinary changes that are shaking the foundations of Canada's cultural and communications industries in the twenty first century. With essays from some of Canada's foremost media scholars, this book discusses the major trends and developments that have taken place in government policy, corporate strategies, creative communities, and various communication mediums: newspapers, films, cellular and palm technology, the Internet, libraries, TV, music, and book publishing. This volume addresses many issues unique to Canada in a broader framework of global communications. Specifically, it looks at new media communications in Aboriginal communities, the changing role of the state in cultural institutions, the conglomeratization of the media, the threat of American and global communications to Canadian voices, and the struggle to retain and reclaim local and national identities in the face of globalization. With articles from academics and professionals across Canada, *How Canadians Communicate Vol 1* provides the most current perspectives on communication in Canada in a rapidly changing world of technology and global communication.
