**The English diaspora in North America** Tanja Bueltmann, Donald MacRaild, 2016-12-05 Ethnic associations were once vibrant features of societies such as the United States and Canada which attracted large numbers of immigrants While the transplanted cultural lives of the Irish Scots and continental Europeans have received much attention the English are far less widely explored It is assumed the English were not an ethnic community that they lacked the alienating experiences associated with immigration and thus possessed few elements of diasporas This deeply researched new book questions this assumption It shows that English associations once were widespread taking hold in colonial America spreading to Canada and then encompassing all of the empire Celebrating saints days expressing pride in the monarch and national heroes providing charity to the national poor and forging mutual aid societies mutual were all features of English life overseas In fact the English simply resembled other immigrant groups too much to be dismissed as the unproblematic invisible immigrants

Williams on South Asian Religions and Immigration Raymond Brady Williams, 2017-11-28 The dual foci for this collection of the author's most important writings are Swaminarayan Hinduism and South Asian immigrants in the United States Both are topics of wide and growing interest in India and in many countries where South Indians have settled Swaminarayan Hinduism's growth in the past few decades in India and among Indians abroad has been remarkable one subsect now has 8100 centers around the world where weekly meetings are held The second focus is on the religions of South Asian immigrants Hindus Muslims Jains Sikhs and Christians The first section is introductory and sets the stage through an analysis of the transmission of religious traditions The second section moves from the development of Swaminarayan Hinduism and its leadership in India to its development in the United States as exemplified in Chicago The third section analyzes the impact South Asian religions are having in the United States and the effects that migration and modernization are having on the religions of the immigrants
