## Introduction

Sociology can be termed as the study of social human relationships and institutions. Sociology's subject matter has a wide range, from crime to religion, family to state, race divisions and social class to common culture and shared beliefs, and from stability to essential change in society. Sociology's purpose of comprehending how perception and humans relate in a community is determined by social and cultural structures. At an individual level, sociology determines the social consequences and causes of gender and racial identity, romantic love, deviant behavior, family conflict, religious faith, and aging (Corrigall-Brown & Catherine, 2020). The societal level deals with law and crime, wealth and poverty, discrimination and prejudice, education and schools, social movements, and urban communities. In Canada, sociological theories and concepts, including social isolationism, heterogeneity, and structural functionalism, have helped analyze social principles in newspapers and magazines.

## Sociological Theories and Concepts to Be Used in Analyses

### Social Isolationism

Social isolationism is a state of losing complete contact with the community to which one belongs. Social isolationism involves individuals staying at home for an extended period without access to community involvement or services (Corrigall-Brown & Catherine, 2020). In

The Vertical Mosaic John Porter, 1965

This book looks at two important aspects in Canadian society its class structure and the composition of its elites or power holding groups A recurring theme in the analysis of both class and elite groups is that Canada has found itself in the middle of the twentieth century with inadequate institutional arrangements for the industrial society it has become Its educational systems have failed to provide the necessary skills which in large measure have been recruited through immigration Its elites have been drawn largely from middle and upper class British charter groups The author further submits that the strong emphasis in the Canadian value system on regionalism and ethnic differentiation has resulted in the fragmentation of the society particularly at the political level and left it incapable of dealing with some of its major problems as an industrial society Although this is a sociological study in which evidence in related to social theory the author has tried to avoid technical terms and this together with the particular relevance at the present time of a discussion of the nature of Canadian society will make this book interesting to laymen as well as specialists

**The Canadian Protestant Experience, 1760 to 1990** George A. Rawlyk, 1994

Five leading Canadian religious historians address the Canadian Protestant experience Each author considers a separate period taking into account the major underlying themes of the time and noting the influence exerted by key personalities As this collection shows Protestantism had its most profound effects on Canadian life in the nineteenth century As the twentieth century unfolded however Canadian Protestantism battered by demographic change profound inner doubt so called

modernity and secularization was gradually pushed to the periphery of Canadian experience The contributors are Phyllis D Airhart Nancy Christie Michael Gauvreau John G Stackhouse Jr and Robert A Wright Aboriginal Voices and the Politics of Representation in Canadian Introductory Sociology Textbooks John Steckley,2003 The philosophical underpinnings of this textbook make it a most interesting read for scholars of Aboriginal Studies the social sciences humanities and cultural studies and humanistic curriculum development John Steckley s familiarity with and respect for the epistemology of the Huron Mohawk and Ojibwa peoples enlightens and enables his research In this book he provides a critical framework for assessing Aboriginal content in introductory sociology textbooks He defines what is missing from the seventy seven texts included in his study of the manifestation of cultural hegemony in Canadian sociology textbooks This critique is suitable for students and professors of sociology as Dr Steckley addresses the impact of the ellipses from the textbooks they have traditionally used

**How Societies Work** Joanne Naiman,2008 How Societies Work offers a unique introduction to the analysis of contemporary Canadian society by focusing on both the roots of modern societies and the current political economy of Canada Drawing on various sociological theories as well as anthropology genetics economics history philosophy politics and social psychology this accessible and integrated work helps undergraduate students make sense of our complex social world The author s goal is to open students minds to the sociological imagination allowing them to connect the social world to their own lived experiences For the fourth edition the book has been thoroughly revised Several chapters have been reorganized many new topics have been added and overall both the language and content have been made even more student friendly Book jacket

**Social Stratification** Dr Paul Lambert,Ms Roxanne Connelly,Professor Robert M Blackburn,Professor Vernon Gayle,2013-02-28 Research into social stratification and social divisions has always been a central component of sociological study This volume brings together a range of thematically organised case studies comprising empirical and methodological analyses addressing the challenges of studying trends and processes in social stratification This collection has four themes The first concerns the measurement of social stratification since the problem of relating concepts measurements and operationalizations continues to cause difficulties for sociological analysis This book clarifies the appropriate deployment of existing measurement options and presents new empirical strategies of measurement and interpretation The conception of the life course and individual social biography is very popular in modern sociology The second theme of this volume exploits the contemporary expansion of micro level longitudinal data and the analytical approaches available to researchers to exploit such records It comprises chapters which exemplify innovative empirical analysis of life course processes in a longitudinal context thus offering an advance on previous sociological accounts concerned with longitudinal trends and processes The third theme of the book concerns the interrelationship between contemporary demographic institutional and socioeconomic transformations and structures of social inequality Although the role of wider social changes is rarely neglected in sociological reviews such changes continue to raise analytical challenges

for any assessment of empirical differences and trends The fourth theme of the book discusses selected features of policy and political responses to social stratification This volume will be of interest to students academics and policy experts working in the field of social stratification     *Technology and Society* John Goyder,1997 Technology and Society is a thoroughly researched insightful sociological analysis of complex issues in the technology society relationship David Long The King s University College     **Canadian Corporate Elite** Wallace Clement,1975-01-15     Contradictions in Canadian Society John Allan Fry,1983     **The Sociological Review Monograph** ,1977     A Statistical Profile of Canadian Society Daniel Kubát,David Thornton,1974
