## Canal Town Youth:

Canal Town Youth Julia Hall, 2001-01-11 This book considers how impoverished youth living in a deindustrialized urban neighborhood struggle to make sense of their lives in today's economy Using participant observation and in depth interviews with a group of eighteen white middle school girls and boys who walk each day from their multi ethnic bilingual school to the historically white Irish community center the author discovered that the poor white youth are experiencing lives saturated with domestic violence and marked by a strong sense of racism She also found that the youth position the community center as a space in which they feel a sense of safety belonging and importance But upon closer examination the community center can also be seen as a literal white construction site where the scaffolding that supports and sustains white supremacist ideology is produced and encouraged within children within the neighborhood across communities and across generations

Canal Town Youth Julia Marusza Hall, 1997 *Pride in the Projects* Nancy L. Deutsch, 2008-07-12 Teens in America's inner cities grow up and construct identities amidst a landscape of relationships and violence support and discrimination games and gangs In such contexts local environments such as after school programs may help youth to mediate between social stereotypes and daily experience or provide space for them to consider themselves as contributing members of a community Based on four years of field work with both the adolescent members and staff of an inner city youth organization in a large Midwestern city *Pride in the Projects* examines the construction of identity as it occurs within this local context emphasizing the relationships within which identities are formed Drawing on research in psychology sociology education and race and gender studies the volume highlights the inadequacies in current identity development theories expanding our understanding of the lives of urban teens and the ways in which interpersonal connections serve as powerful contexts for self construction The adolescents' stories illuminate how they find ways to discover who they are and who they would like to be in positive and healthy ways in the face of very real obstacles The book closes with implications for practice alerting scholars educators practitioners and concerned citizens of the positive developmental possibilities inherent in youth settings when we pay attention to the voices of youth *Youth's Companion*, 1882 **The Youth's Companion** Nathaniel Willis, Daniel Sharp Ford, 1881 Includes music

**Studying Urban Youth Culture Primer** Greg Dimitriadis, 2008 This book provides a concise introduction to the practical and theoretical complexities of studying urban youth culture today Looking across disciplines such as anthropology sociology and education Dimitriadis explores the ways urban youth have been framed in often limiting and problematic ways in the popular and academic imagination Moving beyond critique alone this highly accessible primer opens a discussion about what a truly powerful emergent field of critical youth studies might look like Looking toward the future of this field this book discusses the most important methodological and substantive trends and issues scholars will be addressing now and in the years to come *The Studying Urban Youth Culture Primer* is an indispensable text for students in a range of qualitative methods and urban education courses **Teaching for Global**

**Community** César Augusto Rossatto, 2011-06-01 Education has long been viewed as a vehicle for building community. However, the critical role of education and schools for constructing community resistance is undermined by recent trends toward the centralization of educational policy making e.g. racial profiling, new laws in the US (Arizona and Texas) No Child Left Behind and global racism, the normalization of globalization as a vehicle for the advancement of economic neo-liberalism and social hegemony and the commodification of schooling in the service of corporate capitalism. Alternative visions of schooling are urgently needed to transform these dangerous trends so as to reconstruct public education as an emancipatory social project. *Teaching for Global Community: Overcoming the Divide and Conquer Strategies of the Oppressor* examines these issues among related others as a way to honor and re-examine Freirean principles and aim to take critical pedagogy in new directions for a new generation. The goal is to build upon past accomplishments of Paulo Freire's work and critical pedagogy while moving beyond its historical limitations. This includes efforts that revisit and re-evaluate established topics in the field or take on new areas of contestation. Issues related to education, labor and emancipation broadly defined and from diverse geographical context are addressed. The theoretical perspectives used to look at these emerge from critical pedagogy, critical race theory, critiques of globalization and neoliberalism, marxist and neo-marxist perspectives, social constructivism, comparative international education, postmodernism, indigenous perspectives, feminist theory, queer theory, poststructuralism, critical environmental studies, postcolonial studies, liberation theology with a deep commitment to social justice. **The Praeger Handbook of Urban Education** Philip M. Anderson, Kecia Hayes, Joe Kincheloe, Karel Rose, 2006-03-30 Maintaining that urban teaching and learning is characterized by many contradictions, this work proposes that there is a wide range of social, cultural, psychological and pedagogical knowledge urban educators must possess in order to engage in effective and transformative practice. It is necessary for those teaching in urban schools to be scholar practitioners rather than bureaucrats who can only follow rather than analyze, understand and create.
