### **Canaries On The Rim Living Downwind In The West:**

*Canaries on the Rim* Chip Ward, 1999-11-17 This regional and personal biography begins when the author and his family moved to Grantsville Utah for purposes of small town neighborliness and safety Tales began to circulate about local cases of cancer birth defects and respiratory problems spurring a seven year search that uncovered a history of ecocide and caused Ward to organize opposition to hazardous waste disposal chemical weapons incineration industrial pollution and nuclear waste storage Ward manages Utah's public library development program and is an activist in several environmental organizations Neither index nor notes accompany this less academic addition to Verso's more scholarly Haymarket Series Annotation copyrighted by Book News Inc Portland OR

**Utah in the Twentieth Century** Brian Q. Cannon, Jessie L. Embry, 2009-06-15 The twentieth century could easily be Utah's most interesting and complex Utah in the Twentieth Century chronicles the social and cultural transitions of the time offering a well rounded perspective on the development and change the Beehive State went through during this period It was an era complicated by the push of economic development and pull of traditional culture demand for natural resources from a fragile and scenic environment questions of who governs and how who gets a vote and who controls what on contested public lands during which outside trade and a tourist economy increasingly challenged and fed an insular society Activists left and right declaimed constitutional liberties while Utah's Native Americans become the last enfranchised in the nation Proud contributions to national wars contrasted with denial of deep dependence on federal money the skepticism of provocative writers boosters eager for growth and reflexive patriotism somehow bonded to ingrained distrust of federal government A valuable resource for students and teachers this work is also fruitful reading for anyone who desires to know more about key themes of Utah's history in the twentieth century

**Landscape of the Soul** W. Vance Grace, 2020-05-20 The North American church is struggling Our society seems to be coming apart at the seams and Christianity appears on the verge of losing its voice its leadership and its youth The church's calling is to cooperate with her Creator in the repair of the world Instead we struggle in the loss of the simplicity of the natural images of Jesus which compel us to engage tension dependency and the lesson of being on the margins Until we learn to take our cues from a world we did not build our actions will continue to prop up a society struggling from the weight of its own ethos Part history part cultural dialogue part travelogue always in conversation with the ancient and compelling biblical vision of shalom Landscape of the Soul will encourage you to see beyond the shells of your constructed world to those places where dynamic spiritual rhythms can still be found

**Native Americans and the Environment** Michael Eugene Harkin, David Rich Lewis, 2007-01-01 Often cited as one of the most decisive campaigns in military history the Seven Days Battles were the first campaign in which Robert E Lee led the Army of Northern Virginia as well as the first in which Lee and Thomas Stonewall Jackson worked together

**The Landscape of Home** Jeff Lee, John Calderazzo, SueEllen Campbell, David Waag, 2006 An anthology of some of the most evocative writing focusing on our vast natural heritage along with pieces that

address pressing land issues facing the West This collection not only paints a vivid portrait of life in the Rocky Mountains it also presents some of the finest nonfiction writing to be found in America today This is a perfect selection that is bound to sink reader s roots deeper in the landscape of home      Dirty Wars John Beck,2009-12-01 Since World War II the American West has become the nation s military arsenal proving ground and disposal site Through a wide ranging discussion of recent literature produced in and about the West Dirty Wars explores how the region s iconic landscapes invested with myths of national virtue have obscured the West s crucial role in a post World War II age of permanent war In readings of western particularly southwestern literature John Beck provides a historically informed account of how the military industrial economy established to protect the United States after Pearl Harbor has instead produced western waste lands and waste populations as the enemies and collateral casualties of a permanent state of emergency Beck offers new readings of writers such as Cormac McCarthy Leslie Marmon Silko Don DeLillo Rebecca Solnit Julie Otsuka and Terry Tempest Williams He also draws on a variety of sources in history political theory philosophy environmental studies and other fields Throughout Dirty Wars he identifies resonances between different experiences and representations of the West that allow us to think about internment policies the manufacture of atomic weapons the culture of Cold War security border policing and toxic pollution as part of a broader program of a sustained and invasive management of western space      **Ethics In Action** Peggy

Connolly,David R. Keller,Martin G. Leever,Becky Cox White,2009-01-07 Through the analysis of forty ethical dilemmas drawn from real life situations Ethics in Action guides the reader through a process of moral deliberation that leads to the resolution of a variety of moral dilemmas Fosters critical thinking by evaluating the reasons people give to support their choices and actions Challenges the paradigm of moral relativism that often impedes efforts to resolve moral dilemmas Incorporates international perspectives often lacking in texts published for a U S audience      The Workbook ,2000      **Downwinders** Curtis Oberhansly,Dianne Nelson Oberhansly,2001      **SEJ Journal** ,2000      **Natural Resources Journal** ,2007

**Forthcoming Books** Rose Arny,1999      Coyote's Bare Bones Sara-Laurus Canfield Tolley,2002      **First Church of the Higher Elevations** Peter Anderson,2005 Written for seekers and wanderers of all kinds Anderson explores the complexity of the scripture of place the geography of the heart the landscape of imagination and the topography of memory as it pertains to his personal relationship to place and prayer      *Abstracts of Public Administration, Development, and Environment* ,2001      *Orion* ,2000      **Bodily Natures** Stacy Alaimo,2010 How do we understand the agency and significance of material forces and their interface with human bodies What does it mean to be human in these times with bodies that are inextricably interconnected with our physical world Bodily Natures considers these questions by grappling with powerful and pervasive material forces and their increasingly harmful effects on the human body Drawing on feminist theory environmental studies and the sciences Stacy Alaimo focuses on trans corporeality or movement across bodies and nature which has profoundly altered our sense of self By looking at a broad range of creative and philosophical writings

Alaimo illuminates how science politics and culture collide while considering the closeness of the human body to the environment *The Publishers Weekly* ,1999 *Antipode* ,2003 **God and Country** Jeffery E. Sells,2005 As is well known the state of Utah was created under trying circumstances Settled by religious refugees the territory was at first governed by a people who resented the intrusion of the United States and who recognized no wall dividing church and state This is the legacy that the contemporary state has inherited As subtle and sometimes not so subtle as the influences of the past can be the overall impact of religion in Utah from the founding period to the present has been enormous In this anthology fourteen prominent men and women whose diverse backgrounds in politics history and religion more than qualify them as experts attest to this fact Each interprets the state of religion and politics with a clear informed perspective with reassurances and warnings As the editor notes there is an element of endearment in the tone of these essays they are written by people who live in the state and clearly love her and care about the overall health and well being of her citizens
