Inspired by the craft traditions of textile arts, this book combines a survey of forms of alternative scholarly communication, such as comics, GIFs, maps, games, and generative AI, and a pattern book where patterns serve as starting points that makers can reimagine and remix. Firmly grounded in the humanities and utilizing free tools and platforms including Twine, Voyant, and Tracery wherever possible, this engaging and accessible guide to digital methods introduces and puts into practice concepts that are essential to preparing students to navigate a changing landscape of media and information without investing in proprietary software, dedicated lab space, or expensive creative tools.
