Academic Library Outreach Nancy Courtney,2009 Traditionally academic library outreach has meant reaching out to the campus community providing services to faculty and students Many universities and colleges however now have a new or renewed emphasis on outreach beyond the campus seeking to ensure their institutions relevance to the community at large How can and do academic libraries participate in this type of outreach What types of collaborations or partnerships are academic libraries forming with schools public libraries or community groups How do academic librarians partner with faculty or campus departments on their community projects What role does service learning play Nancy Courtney has assembled a sampling of approaches from the innovative to the tried and true each written in the voice of its strongest champion Participation and Media Production Nico Carpentier,Benjamin De Cleen,2008 In an era when especially new media are celebrated for their participatory potential questions about the nature and intensity of these participatory processes seem to be superfluous But raising these questions pushes us into a critical mode towards the changes that have lead to the present day media landscape This volume TM s authors aim to activate this critical mode and reflect on the participatory nature of contemporary media organizations and products In order to stand even a remote chance to realize this objective and to critically unravel the societal role of participation we need to acknowledge that participation is a complex and contested notion covering a wide variety of meanings and practices that are converging into a hybrid of
