Media Industries in the

Digital Age Amanda D. Lotz, Timothy Havens, 2024-11-18 The digital communication technologies that emerged at the turn of the century have profoundly disrupted long practiced norms of nearly every media industry In particular internet distribution has fundamentally changed the foundation of the media industry to enable the emergence of new sectors while posing a challenge for others Media Industries in the Digital Age reframes our understanding of media businesses in the light of these substantial changes To develop an integrated understanding of media industries today the book foregrounds the different funding sources that are now common It begins by mapping the foundations and developments of media industry operation and exploring all forms of advertiser funded and consumer funded media to identify connections across sectors including digital and legacy media The final section grounds the book's conceptual work in examples of media making to explore how some old media have successfully adapted to internet disruption and the differences and similarities of media making outside of corporations Looking to the future the book anticipates implications for the emerging metaverse media experiences and the key issues generative AI poses to the sector Ultimately the book argues that the contemporary differences in media industry operation vary by sector but meaningful patterns can be identified by considering how advertiser consumer or government funding sets different priorities Offering a new and original way of understanding the media industries today this book is enlightening reading for students and scholars of media studies and media industries as well as global industry professionals
