Bingley, Mike Peters, 2022-11-03 The authors do a good job using the diaries interviews and books written by group members to convey a vivid sometimes too vivid picture of war at its most elemental The Journal of the Air Force Historical Foundation In February 1942 a reconnaissance party of United States Army Air Force officers arrived in England Firmly wedded to the doctrine of daylight precision bombing they believed they could help turn the tide of the war in Europe In the months that followed they formed the Eighth Air Force an organization that grew at an astonishing rate To accommodate it almost seventy airfields were hastily built across the eastern counties of England At the heart of the Eighth Air Force was its bombardment groups each equipped with scores of heavily armed four engine bombers These Boeing B 17 Flying Fortresses and Consolidated B 24 Liberators were soon punching through the enemy's defenses to bomb targets vital to its war effort They were crewed by thousands of young American airmen most of whom were volunteers This book tells the story of just one Bomb Group the 381st which crossed the Atlantic in May 1943 Arriving at RAF Ridgewell on the Essex Suffolk border its airmen quickly found themselves thrown into the hazardous and attritional air battle raging in the skies over Europe The 381st's path led from its formation in the Texan desert to its 297th and final bombing mission deep into the heart of Hitler's Third Reich This is the remarkable story of one group and the part it played in the strategic bombing campaign of The Mighty Eighth

New Statesman, 1929 The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee's career as a professional artist concentrating on the years 1914-20 in which Klee rose from obscurity to recognition in the visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee's sales reviews of his exhibitions the artist's published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee's

transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee's success first in the war weary modernist art world of 1916-18 and then in the pseudo revolutionary art world of 1919-20 This work is a critical challenge to the myth of Klee's art and to the hagiography of his artistic personality Werckmeister's historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come
