Brauer, 2022-01-28 The emergence of the social sciences established in the mid to late nineteenth century had a substantial bearing on how researchers academics and eventually the general public thought about criminal behavior Using Modernism

as a lens Stephen Brauer examines how these disciplines shaped Americans understanding of criminality in the twentieth century and how it provides a new way to think about culture social norms and ultimately laws In theory laws act as articulations and codifications of a community s beliefs values and principles By breaking laws criminals help us reinforce social norms by providing the opportunity to affirm what is believed to be right By operating outside the bounds of acceptable behavior the criminal serves as a useful figure to understand what is at stake in the culture what the central issues of that culture might be and what the fears and anxieties are Criminality serves as a lens through which we can read ourselves and how the criminal operates as a cultural figure signifies the things we are negotiating in our lives and in our communities Brauer focuses on two main concepts central to the very concept of Modernism to explore criminality contingency the idea that the individual might not be in control of their own deviance and agency the notion that the criminal makes a conscious choice to use crime as a means of economic success The figure of the criminal is a powerful one and is key to exploring American twentieth century culture This book would be of interest to students and scholars in criminology sociology cultural studies literary studies history and many others *Cartoonists, Works, and Characters in the United States through 2005* John Lent, 2006-04-30 This penultimate work in John Lent s series of bibliographies on comic art gathers together an astounding array of citations on American cartoonists and their work Author John Lent has used all manner of methods to gather the citations searching library and online databases contacting scholars and other professionals attending conferences and festivals and scanning hundreds of periodicals He has gone to great length to categorize the citations in an easy to use scholarly fashion and in the process has helped to establish the field of comic art as an important part of social science and humanities research The ten volumes in this series covering all regions of the world constitute the largest printed bibliography of comic art in the world and serve as the beacon guiding the burgeoning fields of animation comics and cartooning They are the definitive works on comic art research and are exhaustive in their inclusiveness covering all types of publications academic trade popular fan etc from all over the world Also included in these books are citations to systematically researched academic exercises as well as more ephemeral sources such as fanzines press articles and fugitive materials conference papers unpublished documents etc attesting to Lent s belief that all pieces of information are vital in a new field of study such as comic art **Comics through Time** M.
