

PHILIP J. P. 1850

# Dickens And Imagination

**Barbara Nathan Hardy**

## Dickens And Imagination:

*The Value of Imagination* Spencer Johnson, 1977 A biography of the nineteenth century English novelist Charles Dickens emphasizing the value of an imaginative mind      *Dickens and Imagination* Robert Higbie, 1998 A work which all 19th century scholars will find useful and which Dickens scholars will find indispensable Edwin M Eigner University of California at Riverside Robert Higbie investigates the concept and use of imagination in Romantic and Victorian literature concentrating on the novels of Charles Dickens and showing how they illuminate and are influenced by various tendencies in post Romantic thought Higbie offers a new definition of imagination as a function of desire an unstable compound existing at the intersection of reason and desire and he discusses the way 19th century writers attempted to use imagination to revive or replace religious belief Against this background he discusses Dickens s works from *Pickwick* to *Our Mutual Friend* showing that both an idealist emphasis on imagination and a realist distrust of it evolved in complex ways throughout Dickens s career He argues that Dickens s novels involve a search for some sort of spiritual ideal and that he based that search on imagination At the same time Dickens recognized the limitations of imagination and attempted to transform it through the process enacted in his novels During a period when criticism has been dominated by ideological orthodoxy Higbie does not impose modern quasi political attitudes on his subject but rather accepts the past sympathetically on its own terms His work is refreshingly free of jargon and offers an alternate way of thinking about literature and the creative process Robert Higbie professor of English at Appalachian State University Boone North Carolina is the author of *Character and Structure in the English Novel* UPF 1984 as well as numerous articles on 19th century British literature      *Dickens and the Popular Radical Imagination* Sally Ledger, 2007-03-22 Sally Ledger offers substantial readings of the influences of radical writers on works from *Pickwick* to *Little Dorrit*      *The Imagination of Charles Dickens* A. O. J. Cockshut, 1962      *The Imagination of Charles Dickens (RLE Dickens)* A. O. J. Cockshut, 2013-05-13 This book describes Charles Dickens as an ordinary man who by being perfectly tuned to the public taste developed into a master of his art The clue to this paradox lies in the author s opinion in Dickens obsession with such topics as money crowds and prisons which touch the life of everyone From the deep fears of his childhood they became the main food for his imagination As his creative mind worried over them so his art developed This process provided the driving force behind his work and is at the root of his greatness as an artist      *~The imagination ~of Charles Dickens~* Charles Dickens, 1961      *Dickens and the Trials of Imagination* Garrett Stewart, 1974 Stewart investigates the fanciful impulse among Dickens s characters their exchange of semblance for reality their use of the imagination as a means of retaliating against the fallen Dickensian world      *Imagination All Compact* Herbert Foltinek, 2005 The novels of Charles Dickens have fascinated generations of readers and still engage academic research Yet while much has been done on the wide range of singular characters that Dickens created the social ills that he lashed and the thematic clusters pervading his work some aspects of his writing have so far not been considered The narrative structure of the novels is increasingly

gaining attention but what of their so very characteristic texture How did Dickens achieve colourful fictions that comprise a variety of subjects settings and plot lines and yet remain coherent and convincing The present study attempts to tackle this problem by offering a new approach to Dickens s work The creative process from which the texts derived is here supposed to embrace two complementary compositional modes a dynamic imaginative impulse on the one hand and a restraining ordering faculty on the other The serial publication of the titles and their reception by the reading public allowed the author to fully explore the potential of any narrative situation which would eventually resolve itself into a plausible line of development As an in depth analysis of several of his novels shows remnants of the variants that had floated before him can still be discerned in the texts testifying to the boundless imaginative power of Charles Dickens

*Value of Imagination* Spencer Johnson, Ann D. Johnson, 1979-07-01

*Dickens and the Popular Radical Imagination* Sally Ledger, 2010

*Dickens and Creativity* Barbara Nathan Hardy, 2008 This monograph covers Dickens and creativity analysing both his discussion of creativity and imagination and illustrations in his work Charles Dickens experience and imagining of creativity is at the heart of his self awareness subject matter and narrative His intelligence works intuitively rather than conceptually and ideas about imagination often emerge informally in personal letters and implicitly through characters language and story His self analysis and reflexive tendency are embedded in his styles and forms of narrative and dialogue images of normality madness extremity subvert

**Dickens's Style** Daniel Tyler, 2013-07-04 Charles Dickens generally regarded as the greatest novelist of the Victorian age was known as The Inimitable not least for his distinctive style of writing This collection of twelve essays addresses the essential but often overlooked subject of Dickens s style with each essay discussing a particular feature of his writing All the essays consider Dickens s style conceptually and they read it closely demonstrating the ways it works on particular occasions They show that style is not simply an aesthetic quality isolated from the deepest meanings of Dickens s fiction but that it is inextricably involved with all kinds of historical political and ideological concerns Written in a lively and accessible manner by leading Dickens scholars the collection ranges across all Dickens s writing including the novels journalism and letters

**Dickens's Idiomatic Imagination** Peter J. Capuano, 2023-12-15 Dickens s Idiomatic Imagination offers an original analysis of how Charles Dickens s use of low and slangular his neologism language allowed him to express and develop his most sophisticated ideas Using a hybrid of digital distant and analogue close reading methodologies Peter J Capuano considers Dickens s use of bodily idioms right hand man shoulder to the wheel nose to the grindstone against the broader lexical backdrop of the nineteenth century Dickens was famously drawn to the vernacular language of London s streets but this book is the first to call attention to how he employed phrases that embody actions ideas and social relations for specific narrative and thematic purposes Focusing on the mid to late career novels *Dombey and Son* *David Copperfield* *Bleak House* *Great Expectations* and *Our Mutual Friend* Capuano demonstrates how Dickens came to relish using common idioms in uncommon ways and the possibilities they opened up for artistic expression Dickens s Idiomatic Imagination

establishes a unique framework within the social history of language alteration in nineteenth century Britain for rethinking Dickens's literary trajectory and its impact on the vocabularies of generations of novelists critics and speakers of English

Here Comes Dickens John Carey,1973      **The Violent Effigy** John Carey,2011-09-15 An exploration of the strange poetry of Dickens's imagination by leading academic and critic John Carey Setting aside the usual interpretations of Dickens's work *A Violent Effigy* delves into the wonderful terrible fantasy world it inhabited It shows Dickens torn between the appeal of violence and a fanatical orderliness he was attracted by characters who commit murder or burst into flame or want to eat one another but also required people soaped and regimented The children he created were either the pious gnomes beloved of Victorian readers or callous sharp nosed children who pick out adults by the odd personal atmospheres they carry around Among his females are mythic women whose insidious miniature weapons needles scissors threaten the dominant male He created a shadow land between life and death peopled by effigies walking coffins waxworks stuffed creatures and disturbingly animated corpses John Carey skilfully shows how Dickens demolished Victorian shams while keeping at bay the terrors of his fantasy He celebrates above all Dickens peculiar genius for renewing the world by the curious lights he saw in it

**The Transforming Imagination in the Novels of Charles Dickens** Ross Donald Peters,1989      **History of English Literature** Hippolyte Taine,1900      **Nineteenth-Century Radical Traditions** Joseph Bristow,Josephine McDonagh,2016-09-08 This book takes a fresh look at the progressive interventions of writers in the nineteenth century From Cobbett to Dickens and George Eliot and including a host of lesser known figures popular novelists poets journalists political activists writers shared a commitment to exploring the potential of literature as a medium in which to imagine new and better worlds The essays in this volume ask how we should understand these interventions and what are their legacies in the twentieth and twenty first centuries Inspired by the work of the radical literary scholar the late Sally Ledger this volume provides a commentary on the political traditions that underpin the literature of this complex period and examines the interpretive methods that are needed to understand them This timely book contributes to our appreciation of the radical traditions that underpin our literary past

Romanticism, Medicine and the Natural Supernatural Gavin Budge,2012-10-17 This fascinating interdisciplinary study examines the relationship between literary interest in visionary kinds of experience and medical ideas about hallucination and the nerves in the first half of the nineteenth century focusing on canonical Romantic authors the work of women writers influenced by Romanticism and visual culture

Charles Dickens and the Private Life of the Imagination Peter Erik Strauss,1978

## Whispering the Techniques of Language: An Mental Quest through **Dickens And Imagination**

In a digitally-driven world where screens reign supreme and quick transmission drowns out the subtleties of language, the profound secrets and mental subtleties concealed within phrases often go unheard. Yet, situated within the pages of **Dickens And Imagination** a interesting fictional treasure pulsating with fresh thoughts, lies a fantastic quest waiting to be undertaken. Published by an experienced wordsmith, that wonderful opus invites viewers on an introspective trip, delicately unraveling the veiled truths and profound impact resonating within the fabric of each and every word. Within the psychological depths of the moving review, we shall embark upon a genuine exploration of the book is key themes, dissect its fascinating publishing design, and succumb to the strong resonance it evokes serious within the recesses of readers hearts.
