Dictionary Of Early Zhou Chinese:

A Dictionary of Early Zhou Chinese Axel Schuessler, 1987 The Evolution of Chinese Filiality Deborah Lynn Porter, 2022-03-10 This unique book brings a fresh interdisciplinary approach to the analysis of ancient Chinese history creating a historical model for the emergence of cultural mainstays by applying recent dramatic findings in the fields of neuroscience and cultural evolution The centrality in Chinese culture of a deep reverence for the lives of preceding generations filial piety is conventionally attributed to Confucius 551 479 B C who viewed hierarchical family relations as foundational for social order Here Porter argues that Confucian conceptions of filiality themselves evolved from a systemized set of behaviors and thoughts a mental structure which descended from a specific Neolithic mindset and that this psychological structure was contoured by particular emotional conditions experienced by China's earliest farmers Using case study analysis from Neolithic sky observers to the dynastic cultures of the Shang and Western Zhou the book shows how filial piety evolved as a structure of feeling a legacy of a cultural predisposition toward particular moods and emotions that were inherited from the ancestral past Porter also brings new urgency to the topic of ecological grief linking the distress central to the evolution of the filial structure to its catalyst in an environmental crisis With a blended multidisciplinary approach combining social neuroscience cultural evolution cognitive archaeology and historical analysis this book is ideal for students and researchers in neuropsychology religion and Chinese culture and history **Chinese History** Endymion Porter Wilkinson, 2000 Endymion Wilkinson's bestselling manual of Chinese history has long been an indispensable guide to all those interested in the civilization and history of China In this latest edition now in a bigger format its scope has been dramatically enlarged by the addition of one million words of new text Twelve years in the making the new manual introduces students to different types of transmitted excavated and artifactual sources from prehistory to the twentieth century It also examines the context in which the sources were produced preserved and received the problems of research and interpretation associated with them and the best most up to date secondary works Because the writing of history has always played a central role in Chinese politics and culture special attention is devoted to the strengths and weaknesses of Chinese historiography **The Origins of Chinese Literary Hermeneutics** Martin Svensson Ekström, 2024-03-01 Explores how China's oldest poetry collection was interpreted in a Confucian exegetical text the Mao Commentary in the mid second century BCE The Shijing Canon of Odes is China's oldest poetry collection traditionally considered to have been edited by Confucius himself Despite their enormous importance for Confucianism and Chinese civilization the 305 odes have for millennia also puzzled readers Why did the Sage include in the Canon apparently lewd poems about women promising men to hitch up their skirts and wade the river and men tossing and turning in bed yearning for young women What did the innumerable representations of plants beasts and birds and of various climactic and astronomical phenomena signify beyond their immediate function as natural descriptions One such puzzled reader was Mao Heng a learned Confucian employed at a minor court in the mid second

century BCE The object of this study is the Commentary that Mao composed on the Odes and in particular the hermeneutic tool the xing that he invented to explain the figurality and tropes at play in them Mao's xingish interpretation of the Odes is both genuinely hermeneutic in that it explains the rhetorical organization of these poems and thoroughly ideological since it allows Mao to transform them into Confucian dogma The book also argues that the xing content function and cultural importance is comparable to the Aristotelian concept of metaphor metaphora and that the xing the Odes and the practice of shi Chinese poetry demand an intercultural comparative reading for a more nuanced understanding

Chinese Annals in the Western Observatory Edward Shaughnessy, 2019-11-18 Since the beginning of the twentieth century hundreds of thousands of documents of all sorts have been unearthed in China opening whole new fields of study and transforming our modern understanding of ancient China While these discoveries have necessarily taken place in China Western scholars have also contributed to the study of these documents throughout this entire period This book provides a comprehensive survey of the contributions of these Western scholars to the field of Chinese paleography and especially to study of oracle bone inscriptions bronze and stone inscriptions and manuscripts written on bamboo and silk Each of these topics is provided with a comprehensive narrative history of studies by Western scholars as well as an exhaustive bibliography and biographies of important scholars in the field It is also supplied with a list of Chinese translations of these studies as well as a complete index of authors and their works Whether the reader is interested in the history of ancient China ancient Chinese paleographic documents or just in the history of the study of China as it has developed in the West this book provides one of the most complete accounts available to date

Minimal Old Chinese and Later Han Chinese Axel Schuessler, 2009-04-14 Although long out of date Bernard Karlgren's 1957 remains the most convenient work for looking up Middle Chinese ca A D 600 and Old Chinese before 200 B C reconstructions of all graphs that occur in literature from the beginning of writing ca 1250 B C down to the third century B C In the present volume Axel Schuessler provides a more current reconstruction of Old Chinese limiting it as far as possible to those post Karlgrenian phonological features of Old Chinese that enjoy some consensus among today's investigators At the same time the updating of the material disregards more speculative theories and proposals Schuessler refers to these minimal forms as Minimal Old Chinese OCM He bases OCM on Baxter's 1992 reconstructions but with some changes mostly notational In keeping with its minimal aspect the OCM forms are kept as simple as possible and transcribed in an equally simple notation Some issues in Old Chinese phonology still await clarification hence interpolations and proposals of limited currency appear in this update Karlgren's Middle Chinese reconstructions as emended by Li Fang kuei are widely cited as points of reference for historical forms of Chinese as well as dialects This emended Middle Chinese is also supplied by Schuessler Another important addition to Karlgren's work is an intermediate layer midway between the Old and Middle Chinese periods known as Later Han Chinese ca second century A D The additional layer makes this volume a useful resource for those working on Han sources especially poetry This book is

intended as a companion to the original *Grammata Serica Recensa* and therefore does not repeat other information provided there. Matters such as English glosses and references to the earliest occurrence of a graph can be looked up in *Grammata Serica Recensa* itself or in other relevant dictionaries. The great accomplishment of this companion volume is to update an essential reference and thereby fulfill the need for an accessible and user friendly source for citing the various historically reconstructed stages of Chinese.

Area Bibliography of China Richard T. Wang, 1997. A combination of scholarly commercial and popular interests has generated a large quantity of literature on every aspect of Chinese life during the past two decades. This bibliography reflects these combined interests; it is broken up into sections by subject headings and cross references refer the researcher to related topics.

Seminar, 2006 Vol 4. While providing unique and detailed information on early Tibeto-Burman languages and their contact and relationship to other languages, this book at the same time sets out to establish a field of Tibeto-Burman comparative historical linguistics based on the classical Indo-European model. The volume includes six papers on Tangut, three on Tibetan and one each on the languages Mon, Burmese, Lepcha, Pyu, Nam and Yi. Building a bridge between linguistic and literary research, the range of studies treats phonology, decipherment, literature and religion.
